RAPID GROWTH & INCREASING RESOURCES of the COMPANY:

FIRE	1850.....	£44,027	1854.....	£128,459	1858.....	£196,148
PREMIUMS	1852.....	76,925	1856.....	151,733	1860.....	262,978

An Advance of nearly SIX HUNDRED PER CENT. in Ten Years.

PERCY M. DOVE, Manager and Secretary.

"ROYAL" INSURANCE COMPANY.

It is indispensably necessary that every Company which undertakes to replace the Loss occasioned by FIRE, or to provide by a specific sum, or by an Annuity, the means of subsistence to the Widow and the Orphan, should be able to show its Undoubted Ability to perform these engagements. As ample evidence of the Standing and Position of the "ROYAL" Insurance Company, it may be stated that its

SUBSCRIBED CAPITAL IS TWO MILLIONS STERLING.

THE CAPITAL ACTUALLY PAID UP AND ACCUMULATED AMOUNTS TO UPWARDS OF EIGHT HUNDRED THOUSAND POUNDS.

It cannot be too strongly urged on the attention of the Assurer that SECURITY is the First Desideratum in all Insurance Transactions, and that his object is not attained unless the event or contingency against which he wishes to guard is provided for,—from the moment he has paid his Premium,—under all possible circumstances.

It is therefore manifest that the Capital of an Insurance Company should be sufficiently large to meet all possible demands, and that its amount should be distinctly stated, in order that its entire sufficiency to meet all claims may plainly appear.

REPORT by the AUDITORS to the Annual Meeting in August, 1861.

"We have, in reply to the summons of Your Manager, inspected every Document connected with the Company. We have again passed under examination EVERY VOUCHER, EVERY DEED, and EVERY SECURITY. It is a matter of no light moment to go through "all these in the case of a Property representing something like £850,000, and we found "everything in the most perfect order, and entirely correct."

EXTRACTS FROM REPORT FOR YEAR 1860.

THE GENERAL PROGRESS OF THE COMPANY will be found to equal, if not to surpass, any expectation which could have been formed of it.

FIRE PREMIUMS for 1860 equal Total Fire Premiums for the Seven Years—1846 to 1852.
LIFE PREMIUMS for 1860 EXCEED the Entire Life Premiums for the Eight Years ending 1852.
PURCHASE OF ANNUITIES in 1860 LARGELY EXCEEDS the similar receipts for the first TEN YEARS—1845 to 1854.

FIRE.

INCREASE of FIRE INSURANCE DUTY in the Year 1860 over 1859.

As shown by a Return made to Parliament, and ordered by the House of Commons to be printed, 7th June, 1861.

The following Table exhibits the Increase of Duty paid to Government by the different Insurance Offices, and proves, on the authority of Public Documents, that the Royal Insurance Company is increasing its Fire Business far more rapidly than any other Insurance Office in Great Britain.

The above statement exhibits more clearly and on more conclusive authority than any other that could be produced the high estimation in which the "Royal" is held by the Public.

The Increase of the "ROYAL" is more than double that of any other Company, and more than 30 per cent. of the Entire Increase of all the London Offices combined. The Increase of the "Royal" is also more than 30 per cent. of the Entire Increase of the other 28 Country Offices combined.

GREAT FIRE IN LONDON, 22nd June, 1861.

Within three days of the announcement of the fire to this Office, measures were taken that the London Branch should be in possession of ample funds to meet every loss. Before the expiration of a week from the date of the fire, immediate payment was ordered to such of the claimants as were enabled to give a statement of their respective claims.

No new Fire Insurance Company hereafter to be established will meet even with partial encouragement if it have not a full sufficiency, not of Subscribed, but of Paid-up Capital. No prudent Capitalist will embark in such a new enterprise, and yet ignore the possibility that, until an ample Reserve Fund is collected which requires several years to accomplish, his investment, and it may be a large portion of his subscription, might at any moment be required to meet some unexpected loss of an equal or even greater magnitude than the recent one. The amount to the Credit of the Reserve and Profit and Loss Accounts of this Company would be sufficient to pay its Loss sustained by this hitherto unexampled calamity, were it thrice the amount it proves to be.

LIFE.

The Rapid Progress and position of this Branch will be best shown by the following Statement of the new Life Business effected for the

Whilst for 1860 the amount received for New Premiums reached £15,079 17s. 10d.

The ROYAL INSURANCE COMPANY published late in the last year an account of the investigation into the Assets and Liabilities of its Life Department, under a novel form, and in as plain and intelligible a manner as the abstruseness of the subject admitted, together with the entire statements and valuations necessary for that purpose.

From the extensive Notices of this Pamphlet and its accompanying Diagrams, which have appeared in the Periodicals of the day, it has largely attracted the attention of vast numbers of persons in all parts of the United Kingdom, as well as in other parts of the World. A most satisfactory and conclusive evidence that such is the case, is afforded by the fact that the Sum Assured on New Policies in the six months to 3rd June of the year 1861 is actually 50 per cent. in excess of the Sum Assured in the corresponding months of the year 1860, although the latter amount in itself exceeded the Sum Assured in any like previous period of time.

LARGE BONUS declared, 1855 & 1860, £2 per cent. per Annum,

THE GREATEST BONUS EVER CONTINUOUSLY DECLARED BY ANY COMPANY.

THE ROYAL INSURANCE COMPANY,

NORTH JOHN STREET, LIVERPOOL, and 29, LOMBARD STREET, LONDON, E.C.

THE EXTRAORDINARY SUCCESS OF THE COMPANY, AND THE

PERFECT SECURITY its GREAT RESOURCES afford to INSURERS,
Have been commented upon by most of the leading Newspapers both in Great Britain and abroad.

The following are Abstracts of a few of these Notices.

THE TIMES MONEY ARTICLE.

At the Annual Meeting of the Royal Insurance Company to-day, the Report for 1800 stated that Premiums in the Fire Department amounted to £262,977, showing an Increase of £34,663 over the preceding year, and of £66,829 over the Premiums for 1858, being an Increase of 34 per Cent. in Two Years. The transactions of the year in the Fire Branch give a Profit of £41,067. In the Life Department the Premiums for the year on New Policies amounted to £15,079, being an Increase of £1,993 over the former year.—August 3, 1861.

DAILY NEWS.—These Tables prove the experience of the Royal to have been HIGHLY SATISFACTORY.—DECEMBER 28, 1860.

LEEDS MERCURY.—It will be seen how very much less the mortality of the Royal has been than the mortality for which the Office was prepared.—SEPTEMBER 8, 1860.

Atlas.—Of the Reserved Fund the Manager has every reason to be proud, as it enables him to make the fair loss that in three days after the overhanging catastrophe is allotted to (the Great Fire in London), the Royal was in a position to pay, and did pay, its claims on presentation, thus vindicating its well-earned character for promptitude and liberality in loss settlement. The value to the general and commercial community of such honourable and timely promptitude as the Royal Insurance Company displays to us, cannot be too strongly insisted on.—AUGUST 10, 1861.

Bristol Mercury and W. Counties Advertiser.—The increase in the new duty of the Company last year was more than double that of any other Fire Office in the Kingdom, and equalled one-third the increase of all the London Offices put together.—AUGUST 10, 1861.

Edinburgh Evening News.—The Royal Insurance Company has in some essential respects distanced all co-operators.—AUGUST 10, 1861.

Glasgow Examiner.—If further proof is needed of the extraordinary resources of this Company, we may state that its London branch was provided with sufficient funds to meet every claim caused by the late terrible fire in London, without calling on the Shareholders, or trenching on its paid-up capital.—AUGUST 10, 1861.

Halifax Guardian.—The report for the year 1860 was of a most gratifying nature, and most satisfactory to the shareholders.—AUGUST 10, 1861.

Liverpool Mail.—The Directors are fully justified in anticipating the time when the Company will be placed, with respect to the amount of its new business, at the head of all the Life Assurance Institutions in this country. Nor has the progress of the Fire Branch been at all less remarkable.—AUGUST 3, 1861.

London Commercial Record.—The judicious expansion of the Reserve Fund has been attended with the happiest results. It has ever been our opinion that no Fire Insurance Company can long maintain its ground without having a large positive Capital available any moment for extraordinary contingencies; and this opinion is confirmed by the many failures that have taken place of public companies constituted on the unsound basis of a nominal capital.—AUGUST 9, 1861.

Manchester Examiner and Times.—In three days after the commencement of the fire, measures were taken to supply the London branch with ample funds to meet all calls that might be made upon them.—AUGUST 17, 1861.

Waterford Mail.—An accumulated fund of £300,000, and an annual revenue of £400,000 are features which might command confidence in any Insurance Company that could boast them; but they are not the least features in the character of the Royal Insurance Office.—AUGUST 12, 1861.

Thacker's Overland News.—Here we have the secret of the power and resources by which, in the case of this Company, it was enabled to liquidate at once its heavy quota of £75,000. This secret is simply the comprehensive prudence that in years of prosperity was not tempted to encourage a mushroom growth of business by bold dividends and speculative bonuses, but held to the common

sense of providing steadily from year to year a reserve fund, and one of such magnitude that we are not astonished to hear that, had the loss been thrice as great as it was, the Company could have met it without trenching on a farthing of their capital. In a business where security is the first and grand desideratum, this single fact is worth a volume of commentary.—AUGUST 10, 1861.

Calcutta Phoenix.—The Royal Insurance Company is one of the soundest and most secure means of effecting Life Assurance in the world.—DECEMBER 4, 1860.

Calcutta Englishman.—The Royal Insurance Company has been noticed by the leading London journals in very favourable terms.

Indian Field.—We are of opinion that the methods adopted by the Royal Insurance have been devised upon sound principles, and the success of the Company, as attested by the increase of business, the diminution of expenses, and the falling (unexpected, according to ordinary actuarial computations) in the per centage of claims, may be accounted for by the close adherence to those principles manifest in the proceedings of the Society.—DECEMBER 8, 1860.

Falmouth Post, Jamaica.—The Company is in a thriving condition.—APRIL 23, 1861.

Montreal Gazette.—The Royal Insurance Company is an instance of almost unparalleled, and, we believe, of most deserved success. Last year it lost heavily in South America; this year still more heavily (to the extent of £70,000 sterling) in London. By prudent management it had accumulated funds to meet these heavy losses, and has met them with the utmost promptitude. This is the true test of a Company's stability.—AUGUST 22, 1861.

Montreal Herald.—The prudent and cautious management of the Directors has enabled them, after paying a handsome dividend, to increase the Reserve Fund to upwards of £200,000.—AUGUST 22, 1861.

Hamilton Daily Herald.—The Royal Insurance Company has distanced, in the increase of its business for the past year, all other Companies in the United Kingdom. Advice received by Mr. Bellhouse, Manager of the Hamilton Branch, dated July 4th, state that the "Royal" had already commenced to pay losses incurred by the Great Fire in London, and that the Metropolitan Board was prepared, within four days of the catastrophe, to settle every claim the moment the amount was ascertained. Such promptitude cannot fail to be a most convincing proof of the great advantages to be derived from dealing with a company, whose ample means and high position enable them, without even the slightest temporary inconvenience, to grapple with a calamity almost unprecedented; in the present case payment will be made, without a moment's delay, of claims, the magnitude of which would be sufficient to embarrass weaker institutions, and, in some instances, to extinguish them altogether.—JULY 23, 1861.

Hamilton Times.—The advantages offered by this great Company cannot fail to be appreciated by all who take the trouble to make themselves familiar with them.—JANUARY 22, 1861.

Toronto Globe.—We hope that the business will as largely increase as the enterprise displayed richly merits.—MAY 20, 1861.

Canadian Freeman (Toronto).—The steadily increasing importance of the Royal marks it as one of the most reliable and safe Companies in which to insure against loss by fire.—AUGUST 8, 1861.

Toronto Leader.—The increase in the business of this Company is one of the best standards by which to judge of its popularity and soundness.—AUGUST 14, 1861.

The further Tables showing the rates with profits, and the various forms in which Life Assurances and endowments may be effected, can be obtained at any of the Offices or Agencies of the Company. The rates are peculiarly favorable for young Assurers.

No extra charge made for voyages between any Ports of Australia (beyond 25° from the Equator), New Zealand and Tasmania, mariners excepted; nor for service in Volunteer Corps in the Colony or Province where the Assurer resides.

Advances made on the security of Life Policies, interest being charged at the rate of 6 percent. per annum.

The business of the participating branch is conducted for a charge of 10 per cent., the whole of the profits going to the assured. This system is not equalled in liberality by that of any other Company in Australia, and it gives Assurers all the advantages of a Mutual Society, without risk or personal liability. Moreover, the expense of management of such Societies, in most cases greatly exceeds the charge made by this Company for such expense, and the guarantee of their capital.

LIFE ASSURANCE DEPARTMENT.

1. LIFE POLICIES issued upon the faithful representations of Assurers are indisputable.
2. The Constitution of this Society enables Assurers on the "with profits" scale to obtain a share in the whole of the Profits of its business, without any partnership liability or other disadvantages inseparable from the Mutual System.
3. ASSURANCES are granted for every description of Life Contingency, either WITH PROFITS or, at lowest rates, WITHOUT PROFITS.
4. PREMIUMS may be paid in one sum, or by yearly, half-yearly, or quarterly instalments. They are such as are charged in Europe, and the lowest that can be adopted with full security to the Assured and the Society.
5. Policies are not forfeited as in other Societies. When five years payments have been made, the Policy-holders, if unable or unwilling to continue paying may receive fresh Policies in exchange, equivalent to the then value of the Premiums already paid: or a Cash Payment in purchase of the Policies.

6. ON POLICIES amounting to £200 and upwards for the whole of life, one-half of the premium may remain unpaid at interest for five years.
7. POLICIES two years in existence are not forfeited by Suicide.
8. ANNUITIES, immediate and deferred, granted; also ENDOWMENTS, payable at a given age, or contingent upon death at an early period.
9. NO CHARGE FOR POLICIES beyond the premiums.
10. MEDICAL EXAMINERS remunerated by the Society.
11. *The Concession by the Society to the Assured, in the ordinary course of business, of every advantage and facility that can be safely granted.*
12. CLAIMS ON THE SOCIETY are paid in any part of Australia three months after satisfactory proof of death, or before the expiry of that period, by arrangement.

No extra premium charged for residence in any part of Europe, New Zealand, Australia the Cape Colony, or British America.

Assurances may be effected for India or China on reasonable terms, and on the lives of Naval and Merchant Seamen and Officers, at moderate rates.

Policies are protected by the Legislature of New South Wales against the operation of the Insolvency Laws after a certain term, or a gradually increasing scale.

Policies effected by married women are also protected against the debts and control of their husbands.

GUARANTEE DEPARTMENT.

Policies granted by this Society are accepted in lieu of Private Sureties by all Departments of the Government, and the necessary arrangements for their issue can be made in a few days.

The rate of Premium charged for Government and Bank Officials in all cases where the duties of the applicant are not more than usually hazardous is 15s. per cent., with an annual reduction of 1s. per cent. until the Premium be reduced to 10s. per cent.

Ordinary Guarantees at rates varying from 20s. per cent. upwards, according to the responsibilities of the situation, with a reduction of 25 per cent. after the third payment.

The European Assurance Society offers great advantages to Assurers who combine a Life Assurance with a Guarantee.

The following Table will show the proportional reductions allowed when the two Branches of the Society's business are combined.

Life Assurance, £500 combined with a Guarantee for £1000, will reduce the Guarantee Premium from 15s. per cent. to 7s. 9d. per cent., or from 20s. per cent. to 11s. 3d. per cent.

Life Assurance, £500 combined with a guarantee for £750, will reduce the Guarantee Premium from 15s. per cent. to 6s. 6d. per cent., or from 20s. per cent. to 9s. 7d. per cent.

Life Assurance, £500 combined with a Guarantee for £500, will reduce the Guarantee Premium from 15s. per cent. to 5s. 6d. per cent., or from 20s. per cent. to 9s. per cent.

Life Assurance, £500 combined with a Guarantee for £250, will reduce the Guarantee Premium from 15s. per cent. to 3s. per cent. or from 20s. per cent. to 6s. 6d. per cent.

The Amounts Assured can, if desired, be made payable at age 50, 55, or 60.

Life Policies or Fidelity Bonds may be obtained separately or combined.

Goulburn Herald.

[ESTABLISHED 1848.]

PRINTED BY STEAM.

From the number of years it has been established, and from its extensive circulation, is undoubtedly the

BEST ADVERTISING MEDIUM

IN THE

SOUTHERN COUNTIES.

The increase in the number of its subscribers keeps pace with the development of the Gold-fields, and of the resources of the Districts in which it circulates, and has been so great as to necessitate the introduction of

STEAM MACHINERY

IN THE PRINTING DEPARTMENT.

With the exception of the Maitland Mercury, the

"GOULBURN HERALD"

Is the only provincial paper in New South Wales that is printed by steam;

Which fact speaks more for the extent of its circulation than any mere assertion, however confident.

The Stores being dry, and capable of holding about Four Thousand Tons of Goods, a portion will be reserved for Storage of Produce or Merchandise, at a most moderate rate of rent charge.

They take this opportunity of thanking their Friends and the Public generally for the very liberal support they have received during the last three years, and trust by still studying their interest with the same care and attention as heretofore, to retain their patronage, and by their influence, receive a further support from the Public generally.

PHRENOLOGICAL EXAMINATIONS

Are most important and invaluable, as revealing the real talents and true character of the individual—pointing out the trade or particular sphere in life each is calculated by nature to fulfil, with pleasure and profit to himself, and with benefit to mankind—to parents, showing how to train and educate children in accordance with their natural disposition—in courtship, bringing together congenial spirits, and prevent-

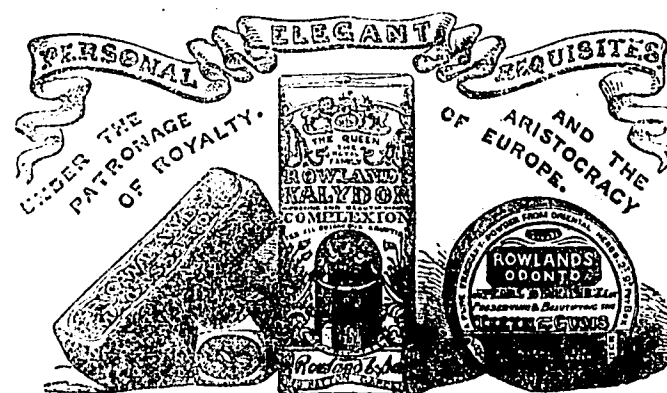

ing unhappy alliances—enabling the married better to understand each other, and make due allowance for the failings of each; and, finally, they are useful to all—teaching us our faults, and how to obviate them; our virtues, and how to cultivate them; enabling us to

"See ourselves as others see us,"

and presenting the highest inducements to self-culture.

Mr. J. D. KELLEY, Practical Phrenologist,

Begs to state to such as have doubts of the efficacy of the science, and to others, that he is prepared to guarantee a correct description of the character of any individual, by an examination of the head. Examinations conducted in private, and strictly confidential, with full written descriptions of character, and advice, given daily from 9 a.m. to 4 p.m., and from 7 p.m. to 9 p.m., at Kelley's Phrenological Chambers, 328, George Street, near Hunter Street. Register from 2s. 6d.

RATIONAL TREATMENT.

It is admitted by most reasonable persons that nearly all diseases spring from an impure state of the blood.

This, of course, arises from many causes, the most frequent being want of pure air and over-indulgence in eating and drinking.

The artificial state of existence which most of the inhabitants of our great towns are compelled to lead, induces much of that languor and ill-health which follow a vitiated state of the blood.

A remedy, however, may be found in

KAYE'S WORSDELL'S PILLS,

which, for more than a quarter of a century, have been recognised on all hands to be the

Best Purifier of the Blood

known in Medicine, and, from their largely-extended sale and general adoption as a "FAMILY MEDICINE," may be fairly classed as a household necessary.

KEATING'S COUGH LOZENGES,

A safe and certain Remedy for Coughs, Colds, Hoarseness, and other Affections of the Throat and Chest. In incipient Consumption, Asthma, &c., they are unfailing. Being free from every hurtful ingredient, they may be taken by the most delicate female or the youngest child.

Extract from a Letter recently received from New Zealand.

"Auckland, N. Z., Nov. 19, 1868.

"A lady to whom I gave some of your invaluable Cough Lozenges, and likewise several members of her family, who were troubled with severe coughs and colds, (especially the youngest child, who had a hard croupy cough,) have experienced great relief, and speak of them in the highest terms. One of my children, too, who was troubled in a like manner, has taken them with the greatest advantage. On account of their pleasant taste, children will readily take them when they will not take other medicines. I may add, that the lady above referred to, informed me that she had frequently purchased them, when residing in India, of Messrs. Treacher & Co., Bombay."

Cure of Asthma of Several Years' Standing.

Causcross, near Stroud, Gloucestershire.

SIR,—Having been troubled with Asthma for several years, I could find no relief from any medicine whatever, until I was induced, about two years ago, to try a box of your valuable Lozenges, and found such relief from them, that I am determined for the future never to be without a box of them in the house, and will do all in my power to recommend them to my friends.

If you consider the above testimonial of any advantage, you are quite at liberty to make what use of it you please.

I am, Sir, your most obliged servant, W. J. TRIGG.

A safe and certain cure for RHEUMATISM, GOUT, LUMBAGO, TIC-DOLOUREUX, SCIATICA, SPRAINS, &c.

TESTIMONIAL

From Captain F. Macdonald, Commander of the East India Ship, the "Lord Auckland."

I feel it a duty incumbent on me to inform you of the very beneficial effect I have received by the use of your infallible Embrocation for Rheumatism, from which complaint I have suffered most severely for more than a month, and was quite unable to leave my bed. I have had the best medical advice, and everything done possible, but to no effect. I heard by accident from a friend of your Embrocation, and immediately sent for a bottle; and after applying it two or three times as directed, I felt very much relieved, and in a week I was perfectly cured. You are quite at liberty (indeed I should wish it) to make what use you please of this document for the benefit of those who may be similarly afflicted. P.S.—I have been afflicted for years with Rheumatism, and never experienced so much relief from any other remedy. You may rest assured I will never put to sea without having a stock of it on board.

"Testimonial from Dr. A. Ure, the celebrated author of the 'Dictionary of Arts, Manufactures,' &c.

"Having tested Messrs. BARRY and Co's. Soluble and other Cocoas, I have much pleasure in stating that I consider them so well prepared, that while they retain the nutritive properties of the finest Trinidad Cocoa Nut, the process of their manufacture is so excellent as to make them particularly bland and acceptable to the most delicate stomach.

"Signed ANDREW URE.

"18, Upper Seymour-street, Portman-square,
"January 25, 1854."

BARRY and Co's Mustard is manufactured by their Patent Process, by which the pungency and flavour of the Seed are preserved to the fullest extent. Dr. Hassall, in his report on the substances used for food exhibited in the Exhibition, 1862, says:—"The Seed from which BARRY and Co's Mustard is made is dried on an improved principle by means of their Patent Apparatus, the action of which, judging from the description given, we should conclude to be very perfect."
