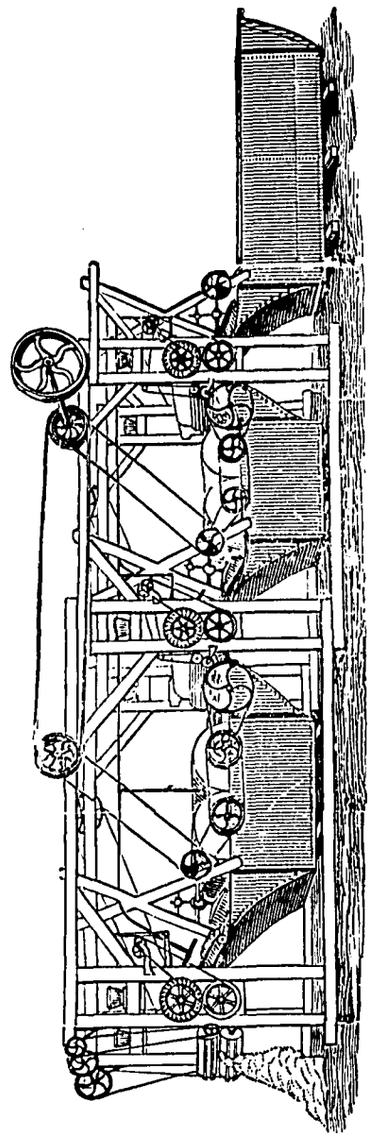
MAKERS & PATENTEES OF WOOL-SCOURING MACHINERY & DAG MACHINERY,

— AND —

WEST NARRABRI, N.S.W.



CLIFTON HILL, MELBOURNE,

To Wool Growers.

Our Machines are more suitable for Stations than any others, for their Lightness, combined with Strength and Simplicity of Gear; any person with ordinary ability being capable of attending to them. Within the last few years we have greatly improved our Machines. We have made the best **CREEPER** we have ever seen for Lightness, Strength and Durability, for carrying the Wool to and delivering from the Rollers. Our process of Scouring is to make a liquor of Hot Water and Soap strong enough to remove the yolk; then start the Machine. Sufficient yolk continually leaves the wool, and makes a natural scour through the day of its own products, enabling the wool to wash with a much softer handle, and the advantage of leaving the fibre full of its natural products.

We are now making **MACHINES FOR TREATING DAGS AND DEAD WOOL**, which take all the heavy dirt out, and make the wool ready for Scouring in the usual way. We are confident this Machine will save its cost in a very short time, and no Shearing Shed or Wool Scour is complete without one.
