Patented throughout the World.

Registered No. 11515, November 8th, 1901.

**A**FTER many years experience we have now been able to perfect and make what will, we feel sure, supply a long felt want to the general public, and which is comprised in the above-mentioned lines.

## The Advantages of Our "WILRILEE" Wire Mattresses.

**FIRST.**—They are absolutely bug and insect proof. To achieve this has been a great consideration with us in devising our new patent. Past experience has convinced us that this is a great desideratum, and we believe we have now reached our aim.

**SECOND.**—Saving in Freights. Cost of Freight has always been a severe handicap to our distant customers, but by the manufacture of our "Wilrilee" lines the weight and bulk has been reduced to a minimum, and freight will be found to be fully 25 per cent. cheaper for railway, and 50 per cent. for sea carriage than on the ordinary patterns, and as overland and team carriage will be found proportionately cheaper, this alone must commend itself to the purchaser.

**THIRD.**—They never stretch or sag. In the weaving of the wire special attention has been paid to this particular. The wire of our new mattresses is woven latitudinally instead of longitudinally, thereby giving greater strength without increase of weight.

**FOURTH.**—Portability. For Camping Parties, Teamsters, Travellers, Shipping and other Companies, our New Mattresses have no equal, being light and compact, and easy to carry; will go through the narrowest doorway or stairs, and can be taken to pieces and put together at a moment's notice, and is so simple in construction that the work may be performed by any child.

**FIFTH.**—A further saving can be effected by using the "Wilrilee" Wire Mattress and Bolster, and "Wilrilee" Bedding, and for the business man who makes his own bedding it means a further saving of fully 15 per cent., as the Mattress need only be made 5 ft. 6 in. long instead of 6 ft. 6 in. This on the turnover for a year means a considerable saving.

**SIXTH.**—These Mattresses do not require the usual method of exterminating vermin life, which not only ruins a mattress, but destroys the bedding, besides giving off an offensive smell, thus effecting a very great saving of time, trouble, and money to the housewife. By using our Patent Mattresses no cleaning is required, as they afford no lodge whatever for insect life. These Mattresses are now being introduced to all the Government Institutions, Asylums, and principal Hotels in the Commonwealth.

These Mattresses can be had in various dimensions and qualities. Children's Cot sizes a speciality. For comfort and cleanliness nothing has been known to compare with this unique production.
