* The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount *actually* spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs" and "Water Supply and Sewerage" are probably most affected by this classification.

PART IV.—INTERCHANGE.

No. 10.—GENERAL IMPORTS into the State of Western Australia during the Year 1906.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902" (Edwd. VII, No. 14). In cases where the duties under the Special W.A. Tariff prove higher than those imposed by the Commonwealth on the like goods, such higher duties are collected.

Duties on goods of Commonwealth origin passing into Western Australia are collected under the provisions of "The Tariff Act, 1893" (57 Vict., No. 11); "The Customs Duties Acts of 1895 and 1896" (59 Vict., No. 8, and 60 Vict., No. 13); "The Customs Amendment Act, 1898" (62 Vict., No. 5), and "An Act to Repeal Duties on Live Stock and Frozen Meats, 1900" (64 Vict., No. 4). These duties lapsed on 8th October, 1906, in accordance with Section 95 of the C. of A. C. Act.

NOTE A.—On British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

Do. B.—The "Quantities" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

* It will be noticed that in several instances the Departmental Totals of Revenue and Expenditure are not identical with the Treasury Amounts published under corresponding headings in Part II, "Public Finance." In explanation it must be stated that the figures supplied by the Treasury represent the actual amounts received and expended within the period under review, whilst the Departmental Returns include all amounts directly relating to that period, although not collected or not paid until after its expiration.

† The reason why Returns relative to certain alienated and leased land are not obtained under the Industrial Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with land which remains *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holdings under one acre in extent are exempted under the provisions of the Act from supplying Returns. The Statistical Returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

* Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In the above table charges have been included concerning children under 7 and over 14. The total of 363 includes, as will be seen, 36 neglected children.

* Exclusive of cost of Administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and, consequently, the percentage of attendance to enrolment at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. a From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." b Including one undenominational school, particulars of which are not included. c Year ended 30th June.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the Bursary, offered to, and accepted by, the boy who had passed; no Bursary was, therefore, actually given.

§ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a Bursary.

§ In 1899, and subsequent years, the Bursaries were for boys and girls, without distinction of sex.

October, 1879, the town of Northampton was declared to be a Municipality. No advantage, however, having been taken of the Proclamation, the name of the Municipality has been excluded from the present Returns. On 27, 1893, the town of Gingin was declared a Municipality, which, however, was dissolved by Act of Parliament, dated 16th January, 1904. (No. 3 of 1904.)
 a Information not supplied. b Constituted as per Census of 31st March, 1901. c Population as per Census of 31st March, 1901. d Not proclaimed a Municipality. e Exclusive of Broome, Collie, Kookynie, Narrogin, Fiddington, North Perth, South Perth, and Wagin, which were not proclaimed Municipalities at date of the Census. f Amalgamated on 23rd October, 1903. g Exclusive of Broome, Collie, Geraldton, Leonora, Malcolm, Narrogin, and Wagin Municipalities. h Population as per March-April Census 1903. i No Rate struck. j Only active from 1st May to 31st October during the year.

PART XII.—MISCELLANEOUS.

No. 5.—Rainfall in Western Australia during 1906.

With averages (to the end of 1906) for all stations having at least five years' records. 100 Points = 1 inch.

NOTE.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1906. The average is taken for all years up to and including 1906.

Square.	Locality.	Total for 1906.		Mean for Square Degree during 1906.	Average to 31st December, 1906, for Square Degree.	No. of Years for Average.

a From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1837 to 1839, inclusive, the Blue Books give only the excess of arrivals over departures, or vice versa. *b* No records obtainable. *c* Including allowance for unrecorded departures.
