INTRODUCTION.

WHEN the strenuous times the State is passing through is taken into consideration, it is scarcely necessary to offer an apology for the diminished size of the present edition. In the curtailment of information, the chief difficulty was to avoid leaving out matter which having been so long supplied, was considered part and parcel of the work. However, in future editions additions can be made, as the occasion warrants. The incorporation of the Country Guide with the Country Directory will, we feel sure, prove of great convenience to our many subscribers who so freely use that portion of the publication.

In the State Parliament three bye-elections took place while the last sheets of "Pugh" were going to press. In the Barcoo and Leichhardt Electorates, the Government candidates—Messrs. Bulcock and Foley—had received such substantial majorities that their election as members of the Legislative Assembly was assured. In the Maranoa Electorate, contested by Messrs. Macdougall and Spencer, the polling was so close, it was quite on the cards that although the Government nominee (Mr. Macdougall) had a majority of 31, the group vote, some 200 odd, might turn the election in Mr. Spencer's (the Opposition candidate) favour.

The counting of votes recorded for the Federal elections was still proceeding, but the larger portion of the Cabinet Ministers had such majorities recorded for them that their re-election was assured. At the time of going to Press the relative strength of the new House of Representatives was—Nationalist, 38; Labour, 29; Farmers, 8.

Speaking of the year that has passed, it may truly be said of it—one of the most disastrous in the State's history. Commencing with the outbreak of influenza, drought conditions have continued throughout the entire year, causing feed for stock and food for human consumption to reach abnormally high prices. Fruit and vegetables, both absolute necessities in a hot climate like Queensland, have been of low quality and high in price. It is said that the darkest hour is before dawn, it is fervently to be hoped that the State is now passing through its darkest hour, to merge into the sunshine of prosperity in the coming days of 1920.

In the new arrangement of public offices the following were accidentally omitted:—Government Advertising Office—Charlotte Street: Advertising Manager, F. Watson; Accountant, W. A. Smith. State Trade Office—Executive Buildings: Commissioner for Trade, W. H. Austin. Meteorological Bureau (Federal)—Divisional Officer, G. G. Bond.

EXPLANATION OF NAUTICAL EPHEMERIS AS ON PAGES 8 TO 29.

Col. (1) Gives times elapsed since new moon.

(2) Passage of moon over Greenwich Meridian at noon; if wanted for intermediate times must be got by interpolation, and in the same way the passage over any other meridian; also the mean time at ship can be found by applying the longitude in time.

(3) The angular semi-diameter of the moon varying as her distance.

(4) Parallax when on horizon, used for getting parallax in altitude.

(5) As only the apparent time can be found by spheres, the equation of time must be applied in order to convert it into mean or clock time, the signs + and - are added to show the direct application of the equation of time for that purpose.

(6) Sun's Decn. for App. noon at Greenwich; for any other times interpolate.

(7) Sun's Rt. An. at App. noon at Greenwich; for intermediate times interpolate.

(8) The Rt. An. of Mean Sun at Mean Noon—or angular distance of Aries from the meridian at Mean Noon—at Greenwich meridian passage.

COMPUTATION OF TIME BY STARS

The following is the method of computing the mean solar time of the transit of a star across the meridian, whose right ascension is known:—From the right ascension of the star, subtract the right ascension of the sun (taken from the right hand page of each month in this Almanac), adding 24 hours to the former when the latter exceeds it, the remainder is the sideral interval after apparent

COMPUTATION OF TIME BY STARS—Continued.

noon of that day. From this subtract the acceleration of sidereal upon mean time, at the rate of one minute for six hours, and either add or subtract the equation of time (from the middle column, right-hand page of this Almanac), according as apparent noon follows or precedes mean noon, and the result will be the true mean time of the star passing the meridian. A simple method, however, of ascertaining whether a clock or watch maintains a correct rate of going by means of any one of the stars may be thus described :

Upon a post or wall, fix a tube or a telescope in such a direction that it may point to any one of the brightest stars. It is immaterial in what part of the heavens the star may be situated when the tube is fixed, but it is better that it should be set to the star when it is near to the meridian. Those stars which are situated near the equator or have very small declination, either north or south, are the best adapted for the purpose.

Having set up and fixed the instrument, all that is needful to observe is the time by the watch or clock when the star passes the centre of the tube or telescope every day. If the time-piece goes correctly (mean time), the star will be found to pass the tube or telescope 3 minutes and 56 seconds earlier each succeeding day. Thus, suppose that on a certain day it passed the tube at 8 o'clock in the evening by the watch, then on the next evening it would pass the tube at 56 minutes 4 seconds past 7 by the same watch, provided it had kept a correct rate of going; consequently, whatever number of minutes or seconds it may differ therefrom, the clock will have gained or lost during the 24 hours. The next following day, the star will pass it 52 minutes 8 seconds past 7, which also would be the time the clock ought to show, and so on every succeeding day; namely, 8 minutes 56 seconds earlier.

The earth makes 366 revolutions in 365 days (nearly); therefore an instant of Star time is shorter than a corresponding instant of Sun time. Table (I) converts Sun into equivalent Star time; (II) Star time into Sun time.

To convert sidereal into equivalent Greenwich time add the h, m, and s in (I) to the Star time at noon — 24 hours if necessary, i.e., $MT = * RA - \odot RA$

To convert Sun time into equivalent Star time $* ST = MT + \odot RA$

TO FIND MERIDIAN PASSAGE OF STAR.

From $* RA$ take $\odot RA$ = mean time, nearly, take of Table (I) the equivalents and adding will give very nearly correct time. Another equivalent for first equivalent will give instant of passage. If any other longitude than Greenwich is used a proportional change in Sun's mean place must be allowed for, which for this longitude will be nearly half way between the two proximate noons.

An easy way of rating clocks is to place a hair in a tube sliding inside a small telescope vertically so that the focus of rays coming through the object glass will nearly correspond with the position of the hair—find the time of a bright Star's transit and point and fix the telescope in that position, note the time of the momentary dimming of the Star and convert the sidereal intervals of transit in solar time; it will be advisable to remove the inverting glasses and thus convert the instrument into an astronomical telescope.

NOTE.—The table is constructed to give the Sun's rising and setting in MEAN TIME, so that it is correct for any place in the same given latitude. To reduce to STANDARD TIME, all that is necessary is to apply the correction for the place required, given at the foot of page 25, adding if later, subtracting if earlier.

The latitude of any other place may be taken to the nearest degree from the second column on pages 38-52.

FLOWER GARDEN.—Precaution must be taken to keep the ground clean from weeds. Plants of roses, shrubs, etc., that have been grown in pots, may be planted out, care being taken not to disturb the roots. A liberal supply of water should be given to each plant until they have become established. Sow seeds of primula, cineraria, in well-prepared seed pans or boxes, well shaded. In the open, plant balsams, coxcombs, amaranthus, zinnia, coleus, helichrysum, marigold, etc. Keep your plants—such as carnations, bouvardias, dahlia, etc.—well staked. At this time of the year, Coleus are now looking grand in their vast array of gorgeous color. Pot plants, etc. in glass houses and bush houses should now be looking their best, with caladiums, begonias, gloxinia, etc. Re-pot and plant ferns in good bush soil; they require plenty of moisture, shade, and good drainage, also plenty of light, but not the hot sun. Charcoal is a splendid acquisition to the pot soil for all kinds of ferns. In fact, charcoal has many advantages, and should be always mixed with potting soil when pounded up to powder.

ORCHARD.—Care must be taken to keep the ground open, forked up, and free from weeds. Keep grape vines tied up so that the wind does not damage the foliage; remove all suckers and useless growth. Where the fruit on tree hangs too thick, thin them out. Any weeds, grass, etc., can be utilised by placing around the trunk of tree, thus making a good mulch, and when decomposed will be a good fertilizer.

VEGETABLE GARDEN.—Though the first month in the calendar (not in the garden), this month is one in which growing vegetables need more attention than planting or sowing. Keep all weed-growth in check by stirring the soil after heavy rain. Dig and leave the ground rough after each crop is removed, so that by exposure to sun and air its texture is improved. A few sweet potato vines may still be planted, as they prolong the season, being available when the earlier are unfit for table use. In sowing such seeds as may be needed for early winter use, select, if possible, a south-west aspect, as the sun's rays are less powerful than on any other aspect. Varieties of cabbage, cauliflower, celery, and French or butter beans may be sown, care being needed with shade and water for such early work. Sow in small beds, over which an old sack or other similar material can be fastened about a yard from the ground, thus acting as a shade from the sun and breaking the force of heavy rain, each of which is detrimental to the young plants; or still better, a light covering of straw or hay, and as the seeds germinate remove the straw, etc., which will place the young plants in a state to withstand almost any weather, as they have been gently hardened. A dusting with lime is very helpful to keep insect pests in

check, or an ounce of tobacco leaf dried, then boiled in one pint of water, the extract being added to three gallons of water, applying same to the plants with a syringe or spray pump about twice a week.

THE FARM.—Maize sown last month will need the scarifier at work to keep the soil free from weeds, and to encourage growth. Sowings may still be made of the 90 day varieties of maize though it is not wise to sow largely so late in the season. This month should be preparatory to work later on, and every inch available should be ploughed, and left with a rough and uneven surface. By this means moisture is caused to descend deeper, and thus forms a reserve for future needs, while the surface is prepared by action of sun and air for a good sowing next month. Crops should now be sown with an object of providing winter feed or green manure, and such as sorghum, cow peas, panicum, teosinte, Japanese millet, white panicum, amber cane, etc. may be sown. A small breadth of potatoes may be planted. They should be whole seed, about the size of an egg, and well sprouted, and in districts subject to heavy rains or on heavy land, should be planted on the ridge as shallow as possible, say three inches deep. Where cabbages are largely grown a bed now sown with Succession or Drumhead, and carefully guarded, will pay well when the cows are short of feed in July. It must be understood that all seeds sown this month have to contend against abnormal heat, heavy rains, and numerous insects and fungoid pests, and those who plant or sow must take every care to as far as possible guard from disaster. A good preventive is to be found in "Arsenate of Lead," directions with each jar. *Paspalum dilatatum*, Rhodes grass, rye grass, or better than all, *Philaris comutata* may be sown. If the latter has not yet been given a trial it should be, as our dairy farmers have yet to discover its value as a green food for winter use, it being more succulent and a stronger grower than prairie. Planted now will provide splendid feed in July and August.

FEBRUARY.

FLOWER GARDEN.—A great deal has to be done this month in preparing boxes for flower seeds, and the flower beds by cleansing from all weeds, manuring, and digging the ground. Of course, the time varies in different parts of the States as to sowing flower seeds. For instance, in Queensland you may commence in February, with the exception of the colder parts, such as the Downs, which will be somewhat later. But to ensure a good display of bloom, it is well to start early, provided you sow in seed boxes, and keep them shaded and well watered. Begin with phlox, candytuft, dianthus, carnations, antirrhinum, browallia, cornflower, globe amaranthus, scabiosa, mignonette, pansy, Canterbury bells, schizanthus, eschscholtzia, forget-me-not, lupins, marigold, larkspur, sweet pea, sweet sultan, *marguerites*, *cineraria*, *primula*, *petunia*, *gloxinia*, and many others. When the plants are about two inches high, transfer them to the bed; if possible, in cloudy or showery weather. Thin out dahlias, and tie up; look over your roses, removing all unnecessary wood, cleansing bark from scale, digging between them, and well mulching with manure. Look over pot plants, stirring up and loosening the soil, and adding little bone dust as a top dressing, or watering with liquid manure.

VEGETABLE GARDEN.—The vegetable garden in this month should be the centre of activity on every favourable opportunity, much of the work being dependent on weather conditions, and as it is usually wet and hot, little can be done. In sowing early, care is needed in selection of light, well-drained soil, a gentle slope to the south-east or south is most suitable. If such an aspect is not available, make a ridge east and west, sowing the seeds on the south side, thus throwing off the direct sun rays. If a dry spell occurs, use the opportunity to stir all ground dug last month, and remove all crops that have ceased to be profitable, digging the ground and leaving it cloddy where it is inclined to be tenacious, to prevent it becoming too consolidated if rain falls heavily. The time of sowing should be dependent far more on weather conditions than monthly dates, as the same conditions govern as in last month, though more scope for sowing with greater success as the month nears its end will be experienced. Repeat the sowings made last month, and, in addition, sow peas, carrots, turnips, lettuce, tomato, radish, beetroot, mustard cress, silver beet, spinach; and cucumbers, custard marrow, bush marrow can be sown for late crop. Potatoes may be safely planted on ridges or light soils, the seed being small and well-started, as in the crop now planted out seed is apt to rot either in dry or wet weather. Gather all vegetables as soon as they mature, as they quickly deteriorate at this season. Any seeds sown last month should be carefully transplanted, if large enough, doing this work in the afternoon if possible, leaving the young plants exposed to the sun as little as possible for a day or so, until they become established. Never miss a cloudy day for transplanting.

FARM.—Maize sown last July and August should now be ready to harvest, and as soon as it is cleared the land should be ploughed, the stalks and weeds being turned under by a disc plough. In the coastal districts this land may, as soon as prepared, be sown with Cape barley, Kaffir corn, sorghum, tares, or any tropical or sub-tropical

plant, for making ensilage in May or June, and where dairying is one of the chief means of livelihood, and ensilage is not in favour, sow Algerian oats on all land as the maize is cleared; a few bushels of seed amply repays in winter feed for the cows; or in the wheat-growing districts, it may profitably be ploughed and left for a month, then cross-ploughed, and again left until wheat sowing, when, after rain, the wheat may be drilled, and the seed harrowed in will germinate and be in fine form to withstand drought. During this month potatoes may be planted on all land prepared during last month, but, in the majority of soils, the latent moisture is prone to cause the tubers to develop disease, but where ground has been well prepared this danger is minimised. This is a good time to plant or sow *paspalum dilatatum* or Rhodes grass, as both germinate very freely and readily during moist weather; the latter is soon seen to assert its ascendancy and will soon become a great favourite with dairymen, as it does not grow so fibrous as *paspalum*, but keeps rooting and throwing up fresh masses of succulent herbage. For horses, Rhodes grass has no equal. A small breadth of mangel wurzel, sugar beet, half-long sugar mangel, or cabbage may be sown, and will be found very useful feed for cows or pigs when grass is scarce and dry. Drumhead or flat Dutch cabbage are splendid cream-producing feed, and are ready for use when grass is scarce and dry.

MARCH.

FLOWER GARDEN.—A general variety of all kinds of flower seeds for the winter blooming can now be sown. Snapdragon, calliopsis, galliardia, phlox, carnation, aster (though the aster grows and blooms in the winter, spring is the best time for planting, and better results are obtained), marigold, schizanthus, hunnemannia, eschscholtzia, marguerites, ranunculus, anemones, leptosyne, marvel of Peru, lupins, mignonette, candytuft, pansy, poppy (amongst poppies the Shirley is a very pretty delicate variety, but better still is the beautiful Iceland poppy which thrives best in a cold climate), larkspur, forget-me-not (Cape and English), rhodanthe, crocolum, lobelia, and many others. As said before, sow all seeds in boxes of soft, well-prepared soil. Shade with old newspaper or any thing suitable, but paper is the best. As soon as the seedlings appear, take off the paper, and when fit for transplanting take as much soil with the roots as possible, and well water the day before planting out if there be no rain. All autumn flowering shrubs have a gay appearance now. Look over your garden walks and borders to keep weeds from seeding. Fork in the mulching, and keep the hoe going between plants. Edging and hedges should be clipped. Tie up and stake all plants needing it. Bulbs may now be put in—ranunculus, hyacinth, tulips, snowflakes, freesias, daffodils, anemone, sparaxis, iris, lilliums, alliums, jonquils, tritonas, narcissus, montbretia, scillas, tuberose, watsonia, agapanthus, zephyranthus, etc.

VEGETABLE GARDEN.—This is one of the most important months in the vegetable garden, and it is now that the benefit is found from the preparatory work of the two preceding months in enabling seeds to be sown at the most favourable time on well prepared ground. A few tropical and sub-tropical seeds may be sown in the Northern Territory. The main sowing for winter crops of cauliflower, cabbage, turnips, lettuce, radish, carrots, beetroot, French, runner, and broad beans, parsnips, kohlrabi, saladings, such as endive, eschalots, white mustard and cress, with sweet and pot herbs, including thyme, sage, parsley, marjoram, fennel, etc. should be made, as greater success is generally experienced at this time of the year than at any other period. In sowing, as in all operations in the garden or on the farm, it is wise to have a plan of operations, it being very important to distinguish whether it is intended to sow in the place it is expected the crop should mature, or with the object of transplanting to another place. All the cabbage tribe are better for being transplanted, and it may be taken as a general rule that it is better to sow such in small seed beds, and transplant when strong enough. Tap-rooted vegetables, such as carrots, parsnips, and beetroot, are better sown in rows fifteen inches apart to remain, as transplanting causes them to throw out fibres, and they thus do not grow clear and straight, and lose much of their flavour; care being taken not to destroy the tap-root. A few cucumbers and tomatoes may be sown, but layers of each are better. This can be done by taking healthy leads, and just placing a little mould over them, pegging down to ensure their rooting.

FARM.—In the coastal districts the early corn will be ready to harvest, and the sooner it is garnered the sooner can the ground again be put to profit; if the land is ploughed and sown with Algerian oats, rye, prairie grass or cocksfoot, there will be a good and certain feed for the cows in July and August, after which they can be allowed to run to seed and mown in October, forming

a valuable and profitable reserve of horse or cattle food. On all lands devoted to potato growing the main winter crop should be planted. Previous cultivation will make this work easy, but sooner delay planting for a few days than try to force the seed into unkind or only partly-cultivated soil. There is no crop pays better for good tillage than the English potato. Lucerne may be sown this month, but only in ground that is in perfect tilth. It is better drilled with a small seed-drill. Where large areas are put in, twelve to fifteen pounds of seed will sow an acre; but where only small plots are put in, it is easiest to sow from fifteen to twenty pounds broadcast, and harrow in, leaving the surface as fine and even as possible. Grass seeds, such as prairie, Rhodes, paspalum, or *Phalaris comutata*, and a few pounds of white or Dutch clover, will not be found amiss in the pastures. Oats, barley, or wheat may now be planted in some districts, whilst the main crop of tares, carrots, mangels, and swede turnips should be sown as soon as weather conditions ensure a fair germination. In growing the two latter it is well to have a seed bed of each, so that attention can be given to watering in their early growth, and they can be easily transplanted after a shower, and thus insure a good early growth. This is the time to think about food for the cattle before the grass comes next spring, and an acre or two of cabbage costs but little, and grows a large amount of valuable feed.

NOTE THE ADDRESS.

APRIL.

FLOWER GARDEN.—The rose, justly called the Queen of Flowers, is, on all kinds of soil, the most satisfactory of garden plants in Queensland, or Australia. The months of April, May, and June are the most suitable for the laying down of a rose garden. For the amateur gardener the most satisfactory method of growing roses is from either worked or rooted roses, such as are procurable at a small price from any nurseryman. The first step should be the laying out of the rosebed. The bed should be well drained, with drain pipes if practicable, and should be trenched to a depth of 18 inches. On the arrival of the plants, if not in pots, they should be carefully unpacked in a shady place, and water sprinkled over them, and kept in the packing. If badly packed, sprinkle with water, and cover with canvas, etc. till ready for planting, but on no occasion let them get dry. If you do so, your rose garden will be a failure, and the nurseryman will be blamed for supplying bad stuff. Should the plants appear shrivelled, open a trench in the ground and lay them flat in the bottom; cover them entirely (roots and branches), with six inches of soil and give them a good soaking with water. After allowing them to remain under ground for two or three days, dig them up and plant as directed. Plants in pots may be at once transferred to the ground and need less care. To plant the roses, dig holes about fifteen inches square, and sufficiently deep to bring the bud (i.e., lower branches) about one-and-a-half to two inches under the general level of the ground. Carefully separate and spread out the roots all round, giving them a downward tendency, then fill in about three inches of soil, and tread down as firmly as possible. Failure often occurs from loose planting. Fill in again with more soil, having the plant in a basin about two feet across and three inches deep, with a little mound of soil around the stem in the centre. Fill up this basin with stable manure, and give the plant about three gallons of water all over the manure mulching. Should the weather continue dry, water again in a week's time, and afterwards fortnightly, until the plants are established. Clean water should always be used to newly planted roses; soapy water will often prove fatal. Never place green manure near the roots when planting, but mix it well with the soil—that is, if old or well decomposed manure is not available. Mulching with manure round the roots has the effect of keeping the soil moist, preventing the ground caking and cracking, and allowing the water to soak in rapidly. After the roses have been planted for twelve months, they should be ready for pruning, which should be done as follows:—Begin by cutting out all dead and small or weak wood with a sharp knife. Afterwards cut back the shoots to a good eye. Should the plants have thrown up any strong new shoots during the summer (often misnamed water shoots) carefully preserve one or two of them, and if they are at all crowded out by old wood, cut the old wood clean away. Hybrid Perpetual roses require hard pruning; Tea roses light pruning; and Hybrid Teas a medium pruning. As regards the manuring of roses, horse manure is particularly suitable for incorporation with heavy or clay soils, and for mulching (it may be used fresh in both cases). Cow manure is more suitable for light, loamy, and sandy soils, but it should be allowed to rot in a heap for a month or two before being used. The following twenty roses will be found very suitable for the Queensland climate:—Comtesse de la Barthe or Maiden's Blush, Pink Maman Cochet, White Maman Cochet, Marie Van Houtte, Kaiserin Augusta Victoria, Madame de Watteville, Therese Levet, White Pearl, Madame Lambard, La France, Medea, Celine Forestier (climber), Lamarque (climber), Reine Marie Henriette (climber), Perle des Jardins (climber), Francesca Kruger, Christine de Noue, The Bride, Homer, Safrano, but there are many others being introduced annually which are just as suitable. The following are some of the newer introductions; Etoile de France, Queen of Spain, Frau Karl Druskii, Mildred Grant, Souv. de Pierre Notting, Avoca, James Craig, Dr. O'Donnell Browne, Rhea Reid, Hector Mackenzie, Madame Joseph Low, Mrs. William Cooper, Star of Queensland, Etoile d'France.

VEGETABLE GARDEN.—Much depends this month upon the work done or left undone last, as arrears of sowing or planting should be brought up quickly. Such cabbages, cauliflowers, etc., as are ready to transplant should be moved as early as weather and growth permit, it being better to transplant before the plant is stunted by drought or grows leggy by too much moisture; two feet apart. In rows two feet six inches asunder is a good distance. Keep French beans, butter beans, etc., from carrying seed pods, and they will continue to yield, or if they have ceased to be profitable, clear them off, and use the ground for cauliflower or cabbage. Thin out carrots, beets, parsnips, and keep the soil well stirred between the rows. A few onions may now be sown for transplanting in June, and another sowing of saladings should be made. In localities where frost is not much in evidence, peas, French beans, and tomatoes may be sown, and will repay any little attention they may require. Celery that has been carefully tended should now be ready for earthing up, care being needed to prevent the earth falling into the leaves. This can be done by gathering the leaves in one hand, and placing the soil around with the other; or still better, place a covering of brown paper from surface of soil to foliage, and bank up with manure or soil around the paper. The paper will thus keep off any grit, and the stick of celery will be crystal white and clean.

FARM.—This is a busy month to the maize-grower, and he should get in all crops as they are fit to garner, and again plough the land for future crops, for it is the essence of bad farming to allow land to lie idle. The main crop of potatoes planted in February or March will now be in full growth, and care should be exercised in their cultivation. It is better to earth them up twice than to bury the young tubers by one heavy earthing, the gentle stirring of the soil being a great help to their growth. Sowing of oats, rye, vetches, mangels, and swede turnips may be made, and those sown last month thinned out, and transplanted in well-prepared soil. Those engaged in cotton growing will now find the pods bursting, and picking must be attended to, care being needed to gather all lint dry, as any picked damp will be damaged. In sowing wheat thus early less seed should be sown, as it will tiller more freely than later sown, and the quantity must be increased in May, and again in June. This also applies to barley and oats.

FLOWER GARDEN.—Clean away all weeds and well fork up ground between rose bushes and shrubs already planted. Still continue to sow seeds of annuals for a good spring blooming, such as phlox, dianthus, carnations, snapdragon, linum, larkspur, echscholtzia, gaillardia, calliopsis, candytuft, mignonette, salpiglossis, summer chrysanthemum, cornflower, sweet pea, petunia, scabiosa, schizanthus, pentstemon, nemesia, linaria, godetia, clarkia elegans, and many other varieties. Pansy seed may still be sown. It is often asked, what can I plant for a border flower? Here are a few—Pyrethrum (golden feather)—its beautiful bright yellow foliage lends an attraction to the flower garden; lobelia, with its pretty green leaf and pale and dark blue flowers, give a beautiful effect; sweet alyssum, a flower after the candytuft type, which gives a profusion of white flowers; Virginian stock, with a great show of pink and white flowers, is very effective. Gypsophila paniculata is a very pretty white bordering plant, and is well worth growing; when bunched together it is most effective, resembling candytuft; also the red and yellow iresine and red and yellow altermannthera. These are perennials, and will stand being clipped to any shape or design. For plants to flower in pots, there is the primula, cineraria, etc.; but one that is very little trouble is the cupid sweet pea, formerly in pink and white, but now it is to be had in many colours. It grows a few inches high. Plant several peas in a five or seven-inch pot, with good soil. Place the pot in the open, as the bushhouse tends to draw them up too weak. Keep them well watered, and you will be pleased with the result. All pot plants should have the soil well stirred up round the plant and given a sprinkle of bone dust. Mix this well in with the soil; it will invigorate the plant, and give a better colour to the foliage; also to water with liquid manure is very beneficial, horse or cow manure will do, the latter being the best. Put the manure in an oatmeal bag, then place it in a kerosine tin, or anything else suitable, and fill up with water; use this about twice a week. Do not allow scale to accumulate on your roses, but dress them with Geshurst compound, or MacDougall insecticide wash: directions accompany each box or tin. This will kill all scale without injury to the plant. Mildew is another pest that troubles the rose grower. Different remedies have been applied with success, such as dusting them over with flower of sulphur, early in morning, while the dew is on roses, then syringing them with emulsion. These are the ingredients for an emulsion—say two ounces of soft soap, half pint kerosine, four gallons water, all well mixed, stir well each time before using, and apply with syringe. The best remedy for mildew is obtained by procuring one ounce sulphate of potassium and adding two gallons of fresh water, stir well and apply with a syringe or spray pump. It is as well to cut the rose hard back, and let it start afresh, if none of these recommendations will remove it.

ORCHARD.—Prepare ground for planting fruit trees, also grape vines, which, if they are not, can be planted next month.

VEGETABLE GARDEN.—Repeat the sowings of last month in smaller quantities with the exception of onions, which may now be sown in larger beds, either to stand or to transplant the thinning out ones. Continue transplanting the plants from seeds sown last month. Broad beans do well in most districts if sown this month. Silver beet is a most useful vegetable, and may be sown now. The leaves are boiled, and

resemble spinach. The root is left in the ground, and after each rain a fresh batch of leaves shoot, and at least half a dozen pullings can be taken from each plant. This is a good time for preparing asparagus beds. In retentive soil the ground should be dug eighteen inches or two feet deep, and well broken up, any long litter, weeds or strong rubbish being buried to that depth to ensure drainage; but in light soil double digging is ample. Being a gross feeder, manure and salt is needed in order to have a successful crop. Rhubarb roots may be planted in a good manured bed.

FARM.—This month should see the maize crop harvested in all cases but the very late sown, and all ground should be ploughed and devoted to the growth of winter feed for cattle, sheep, or pigs. If any is not needed, it can be ploughed under in July or August, and forms a valuable manure—cow pea or vetches for preference. This is the month to try for a crop of potatoes in the north. Those planted in February will now be fit to harvest, and may be ploughed out or left a week or two longer in the ground, as the work on the farm or state of the market may guide. In most districts wheat can be sown, though it is better to spread the seeding period over some weeks, always bearing in mind that more depends on good seed and favourable weather for seed germination than the day of the month the seed is sown. Unless the weather proves favourable, failure, more than success, will be the result. Do not neglect any ploughing that can be done. Don't have to wish next month you had done it this. On the Pacific slope attention should be given to falling scrub, stumping, and bringing under cultivation fresh areas, as the cool weather favours such work, and gives plenty of time for sweetening the soil before sowing or planting in the coming spring.

FLOWER GARDEN.—The time has fully come to plant the Queen of Flowers—the rose—as spoken of in April. Those who wish to have a splendid show of beautiful blooms must lose no time in selecting strong good plants of ever-blooming roses. Plant in good stiff soil, and give a good heavy mulching of well-rotted manure, and a rich reward of bloom will follow. A very good list of roses will be found in the notes for the month of April. The flower garden demands special attention at this time. Thoroughly clean all the flower beds from weeds, well dig and manure. Sow annuals of most kinds, such as phlox, carnation, antirrhinum, dianthus, everlasting, lupins, candytuft, mignonette, marigold, pansy, cornflower, calliopsis, gaillardia, sweet pea, larkspur, salpiglossis, leptosyne, linaria, nerembergia gracilis, schizanthus, marguerites, etc. All bulbs should be at once planted, such as daffodils, narcissus, freesias, ixias, tritonia, watsonia, babiana, gladioli, etc.

ORCHARD.—Fruit trees should be got in, of nearly all varieties, so as to let them get a good root hold, ready for spring growth, such as apples, pears, plums, figs, quinces, apricots, nectarines, mulberry, persimmon, lemon, oranges, cumquat, mandarin, lime, citron, peaches, cherries, etc. All varieties of shade and ornamental trees should be planted without loss of time, making certain of any deciduous trees, as the magnificent plane tree, the poplar, and weeping willow. The evergreen trees being mostly grown in pots, these could be planted at almost any time, if weather permits. Pruning and training should be attended to this and next month, providing the trees are at rest.

VEGETABLE GARDEN.—This month frost may be expected on the Downs and in some of the low-lying districts and except in the more favoured districts where, even in July and August, but occasional light frost is expected. Seeds should be sown but sparingly, the time devoted to transplanting those already sown. Hoeing amongst those transplanted, and growing freely, will be time and labour far more profitably spent. Onions when transplanted should only have the fibres of the root covered, the bulb being left clear above ground to ensure thin-necked bulbs of good size and quality. Rhubarb and asparagus may be planted in the beds prepared last month, the roots being purchased or transplanted from seed sown the August or September previous. Weeds will not now be troublesome, but all growing crops benefit largely by the use of the hoe in all stages of growth, except at the period of ripening. Cauliflowers now showing the formation of flower heads should be given a plentiful supply of water at least twice a week if the weather is dry. Peas sown now will grow well, and come into bearing early in September.

FARM.—Lucerne is the main crop needing attention now. As the weeds are very slow in growth, the lucerne gets a fair start, and being a deep rooter, has a good start for the ensuing spring. All arrears of wheat sowing should be brought up, double the seed used per acre in April now being required. A dressing for the seed is one pound of sulphate of copper dissolved in twenty gallons of water, the seed being either steeped or sprinkled, and turned over three or four days before sowing. Earliest sown crops should now be found useful. Mangels, cabbage, carrots, and swedes may be used as ready, and potatoes (English and sweet) harvested and all fodder crops stored for future use as they are ready to cut. English potatoes

carefully harvested and stored in a cool, dry place will keep sound till December, if looked over in September or October and the eyes cleared of sprouts. Land should now be put in good form with the plough, every yard being turned as it is cleared, and left exposed to sun and air in the whole furrow. Arrowroot will soon be ready for digging, as frost has made its appearance. Yams, ginger, and Jerusalem artichoke, too, may be taken up. In the north all seeds of the temperate climes may be sown this month, and will, in most cases, provide a splendid treat in August, September, and October. All tropical seeds may be sown there, and cuttings planted.

JULY.

FLOWER GARDEN.—Keep all weeds down and well fork up between roses and trees already planted. The addition of manure mulching, this month especially, will well repay you. Sow flower seeds for spring and early summer flowering, such as snapdragon, phlox, gaillardia, calliopsis, candytuft, scarlet flax, lupins, mignonette, sweet pea, poppy, marigold—English, French, and African—summer chrysanthemums, scabiosa, sweet sultan, cornflower, carnation, clarkia, eschscholtzia, forget-me-not, marvel of Peru, malope, rhodanthe, acroclinium, globe amaranthus, pyrethrum, stocks, Virginian stock, lobelia, nasturtium, Swan River daisy, browallia elata, Canterbury bells, columbine, mauranda (creeper), cobeas scandens (creeper), thumbergia (creeper), love-in-a-mist, nemophila, petunia, pentstemon, canary creeper, etc. For a sure return for your labour, we strongly advise all seeds to be planted in seed boxes. This little trouble will ensure you a splendid lot of plants, of course always providing your seeds are fresh and good. Still plant roses and flowering shrubs. For a small garden there are a dozen good roses that will give you flowers nearly all the year round. *Triumph de Pernet Pere* (red), *Kaiserin Augusta Victoria* (white with lemon centre), *Marie Van Houtte* (white edged pink), *Mamon Cochet* (pink), *Mamon Cochet* (white), *Perle des Jardins* (yellow), *Francois Dubreuil* (velvet crimson), *Madame de Watteville* (salmon-pink bordered rose), *Souv. de la Malmaison* (flesh colour), *Etoile de France* (cherry red, sweetly scented), *Niphetos* (pure white), *Christine de Neve* (deep purplish red). These are twelve really good roses; of course there are many more. Now for three or four good climbers—*Marechal Neil* (deep yellow), climbing *Kaiserin Augusta Victoria* (creamy white), *Monsieur Desire* (deep crimson, shaded purple, sweetly scented), climbing *Malmaison* (flesh color), *Le Marque* (white), *White Mamon Cochet*, *Souvenir d'Therese Levet*, *Celine Forestier*, and *Reine Marie Henrietta* (bright red). For a small garden these will make blooms all the year round—that is, with proper attention. Close out back all old roses that show no signs of flowering. Do not be afraid of cutting and thinning out at any time after they have finished blooming; they will soon make a fresh start, and give increased bloom later on.

ORCHARD.—The orchard should this month be thoroughly cleaned and the surface stirred, all arrears of both planting and pruning being fully overtaken. A good mulching of long manure, hay, or dry leaves put around any newly-planted tree will prove of great benefit during the hot weather.

VEGETABLE GARDEN.—Again the gardener will need to sketch out his scheme of operations in the kitchen garden, the object being to provide a succession of delicious vegetables of various kinds, always in plenty, but never overabounding or scarce. To ensure this frequent sowings and plantings are necessary, and this may be accounted the best month in the year to make a systematic start. It is taken for granted that all vacant ground has been dug, and after the first rain in July sow cabbage, carrot, parsnips, peas, a good breadth in rows three feet apart, leeks, onions, eschalots, beetroot, swede turnips, and the small saladings such as mustard, cress, radishes, and lettuce. In very warm districts cucumbers, vegetable marrows, chokos, and a few French and butter beans may be sown, but they, like tomatoes, water and rock melons, will not do as well as if sown next month. Pinch the tops of broad beans to assist the flowers to set, keep the ground well on the move amongst the growing crops, especially the onions. In districts subject to frost, water the seed beds in the morning, but avoid the watering-can as much as possible consistent with safety to the seedlings growth.

FARM.—The farm should be a garden enlarged, and at this season the plan of the year can be best mapped out, and each farmer must, to be successful, take into calculation his requirements for home consumption, profiting by past experiences, whether of shortage or overabundance. Ground that has not been should now be prepared for the potato crop by deep ploughing and frequent working with disc or spring-tooth harrows, though it is not wise to plant large areas till the last week in the month, and even then it is a risk in districts subject to frost. Tubers may be cut, but for early and late planting whole seed are more reliable. Grass seeds of approved kinds may still be sown, and lucerne if not sown last month may now, with success, be sown; also oats for hay, but these must not be grazed if good hay is desired. The principal work now is preparing ground for potatoes, cotton, maize, sugar cane, tobacco, sisal hemp, and for the final sowing of mangels, Swede and field turnips and field carrots, which this month should find completed. Harvesting the sugar cane will now be in full swing, both in the north and south, and those engaged in this work will find but little time to overtake arrears of other work. Coffee planters, too, will be busy with their harvest, and arrowroot growers will be reaping the fruits of their labour. The farmer who intends to be well in hand with his work must see that July leaves nothing waiting for August, except well prepared fields for the maize, potatoes, etc., that he has waiting to be placed in them. Be sure and let the seeds or plants be of best quality.

AUGUST.

FLOWER GARDEN.—Now is the time to commence sowing summer annuals, cosmos, sunflower, cockscomb, zinnias, portulaca, helichrysum, balsam, nasturtium, and most of those named in last month. Portulaca is very pretty either for a border or to plant in whole beds; the colours are brilliant, and will keep on flowering till next autumn. The double variety, though more expensive, is very handsome. In zinnias, the new giant gives fine large double blooms. Balsams of any variety are very gorgeous, but the best of all is the camelia flowering variety, bearing flowers of unique colors almost as large as roses. Sow asters of all kinds now. They will give a good summer show. Gerbera Jamiesonii, or South African daisy, is a perennial daisy which has been greatly neglected, although it is never out of bloom, and the range of various colors is most wonderful. Be sure and get a few from your seedsman. There is still time to plant roses, shrubs, and shade trees. Do not neglect your pot plants. Re-pot when necessary, and those you do not re-pot, well stir up the soil round the plant and add a little bone dust. This will start them off for the spring growth.

VEGETABLE GARDEN.—In the vegetable garden all the seeds mentioned last month may be sown in smaller quantities, the last reliable sowing of cabbage being made, as these will carry on the season till the New Year. Jerusalem artichoke may be planted, and is a vegetable that well repays its place in the garden. The winter vegetable seeds should now give place to the more tender tropical ones that flourish in fierce sunshine and torrential rains. Yams, jerusalem artichokes, sweet potatoes, vegetable marrows, pumpkins, capsicums, egg plant, cookra, or indian rock melon, cucumbers, tomatoes, rosellas, water, rock and pie melons may now be sown. The tender French and butter beans will now be safe in almost all localities. Don't be afraid to plant a few running beans, as the Snake or Chinese, Epicure, Kentucky Wonder, and Lima. All the extra work is to stake them, but the results will well repay you. The better plan is to look carefully through the garden, and make good any deficiency in last month's seeding, or sow more of the kinds in greatest demand; but don't omit the small saladings, they are so tempting when the weather is hot, and they taste so much better from your own garden than from that of a Chinaman. A few bushes stuck among the salad beds or a few seeds of sweet corn, will provide shade and help growth, care being exercised to plant them on the north or sunny side of the beds.

FARM.—The only ploughing to be done in August is that which by no possible chance could have been done in July, or that still occupied by fodder, crops or roots. The latter will now be swelling, and should be given the final clearing with scarifier or hoe. The drooping leaves of mangel may, with advantage to the crop and the cows, be used as food for the latter. They do not taint the milk; are succulent; and at this season are second only to cabbage as milk producers. Just try your cows, and see if they like them. Potatoes will now be well sprouted, and may be planted freely. Maize may be sown in all districts, but that sown thus early will be a prey to weavils in its last stage of ripening. Pumpkins (cattle and table) may be sown, but the lady-bird and other insect pests pay them much attention thus early, especially on the coastal lands; arsenate of lead is an exterminator for the lady-bird and pumpkin beetle. Arrowroot should be planted, and towards the end of the month ginger and tobacco seed may be sown, and if sweet potato vines are available, they may be planted. Sugarcane may be planted in the south towards the end of the month, and also Indian cow cane, which has proved a wonderful asset to the dairyman. Early planted cane is better able to resist frost than cane planted late in the season. Pea nuts sown now will be a good stand by for your pigs during the winter months. Keep the cultivation as free from weeds as possible. Don't

forget that if little weeds are kept from growing, there will be no big ones to destroy. This and next month will test the value of the work done in the early months of the year. Cattle and horses now benefit by the splendid feed afforded by the breadths of Algerian oats, prairie grass, etc., those thus equipped feeling the benefit in the cream cheque and healthy look of their stock.

FLOWER GARDEN.—This month sow, as in last month, for summer blooming, zinnias, portulaca, helichrysum (a various colored everlasting flower), balsam, petunia, phlox, dianthus, snapdragon, aster. All roses planted now must be from pots, so as not to disturb the young growth at root. Camphor laurels, weeping figs, pepper trees, silver wattles, white and purple bauhinia may be planted; in fact, all kinds of shrubs can go in, as the single and double flowered hibiscus of all colours, the three-coloured Francisca, bouvardias, salvias, camellias, russella, justicia, azaleas, etc. These good old hardy shrubs will give you a show when most of your annuals have gone, provided they are from pots. Complete all pruning, dig up flower beds and borders, keep walks clear from weeds. Where the lawn is impaired, sprinkle some seed of lawn grasses or couch; cover and water. This will cover bare patches. Plant verbenas, hollyhocks, gladiolus bulbs, tuberose, amaryllis, etc. Chrysanthemums, for show purposes, should be got in now. Don't forget to re-pot plants in the bush-house, and add a little bone dust. This will help them on to maturity. All plants, such as trees and roses, will require attention as to watering, as the west winds are very trying even in this month. A good mulching of well-rotted manure is a good thing to keep the dry weather out and the moisture in. Prepare ground for planting dahlias next month.

VEGETABLE GARDEN.—In the garden that has been well tended there will now be an abundance of vegetables, and all those that are at their best should be used, and the ground dug, and planted with rosellas or sown with beans of kinds. Yams may now be planted in rows or hillocks, the soil being light and friable. A few rows of peas may be sown early in the month, and will do fairly well. Asparagus beds will be in full bearing, and a dressing of salt will help them on. Salt is a useful top dressing, but needs care, as if used excessively it creates sterility. It checks insect and fungoid pests, assists in checking evaporation, etc., but used in excess, causes the soil to bake after rain. This month all the seeds named last month may be sown, but with the exception of those natives of the tropics, in smaller quantities and with increased attention. The most success will be attained on land sloping to the south or south-west, to avoid the direct rays of the sun. All vegetables sown from now on to the end of the year must have attention, especially in watering. When watering, give a good soaking in the evening, and stir the soil on the following day to prevent baking, as direct opposite conditions prevail to those advised upon in July to minimise damage by frost.

FARM.—The spring having fully come, the Darwinian theory of the survival of the fittest must be the incentive to the active use of the horse and hand hoes. Too much dependence is placed in these days of hurry and bustle upon the horse or motor machinery for cleaning the land, but in maize, potatoes, sugarcane, etc., the rows and stools must be hand cleaned, or they become the seed beds of future trouble, for it is impossible to keep land clear of weeds if those growing in the rows are continually left to seed. All crops sown last month may with advantage be sown this month. Cotton seed should be sown and sugar-cane planted, rice also may be sown, and on our coastal lands is one of the crops yet to receive the attention it is

worthy of. The ground cleared of fodder crops should be at once ploughed, and as soon as in good order sown or planted, the dairyman now remembering that a hot spell in December or January will be met and negotiated more successfully if he now sows a few acres of a succulent fodder crop for use then, looking for his return in the cream can rather than the sale direct of the crop grown. Prairie grass, Rhodes grass, paspalum, or Philaris sown now on well-prepared ground after a thunder shower will grow well, and in November will be in good form for the milkers. Do not allow them to crop too closely if the weather be dry, as if they just take off the leads, the grass will grow more strongly, and a month later they may browse on first-class feed at their own will. Maize, sorghum, panicum, imphee, tobacco, and pumpkin are the principal seeds for the field, while English and sweet potatoes can be planted with good prospect of remunerative crops.

ORCHARD.—Now being the beginning of spring and frost not likely to trouble you, plant out any evergreen fruit trees, as mangoes, papaw apples, guavas of sorts, Avocado pear, Brazilian cherry, rose apple, passion fruit and granadillas, Jack fruit, loquat, etc. Most of these you will be able to procure in pots from your seedsman. See that any newly-planted fruit tree is well mulched, and not allowed to want water. Be sure and attend to your grape vines, as all the fruit is now set, and any superfluous growth may be pinched out, and thus give more vigor to the fruit. Do not neglect to sulphur, doing this when the dew is on the vine.

OCTOBER.

FLOWER GARDEN.—Dahlias can now be planted. There are many very beautiful varieties of this showy flower. The double cactus dahlia is occupying a very important place amongst the class, of which there are many very beautiful kinds. It will not be amiss here to mention some splendid cactus varieties—Amethyst (Turkish Amethyst), C. M. Richardson (yellow, suffused salmon), David Rumble (purple plum), Carl Likely (cherry red, large reflexed), G. H. Kerslake (carmine rose, best of its colours), Harbinger (yellow, outer petals salmon), Hilda (bluish violet, extra good), J. R. Yorke (claret crimson), King of Stripes (golden yellow, striped scarlet), Lillian Lockley (extra good white), Lucinda (deep rosy purple), Mrs. C. T. Richardson (beautiful formed, pure white), Mrs. Adrian Knox (soft pink, chaste form), Mrs. Fred McQuade (large white), Mrs. G. Kerslake (fawn, yellow and pink), Mabel Kerslake (purest white), Primrose Queen (beautiful primrose), Queen of Roses (bright rose pink), R. Henderson (rich golden yellow), Simplicity (canary yellow primrose tips, one of the best), T. A. Kerslake (deep crimson, extra large), M. L. Kerslake (purple). The chief work to do, is to well attend to things that are flowering, by gently stirring up between plants, and raking over, keeping off all weeds in flower beds and in paths, keep grass well cut, and hedges well trimmed. Watch the bush house, doing any re-potting required, and potting off caladium, feeding pot plants with liquid manure. Look to your roses, and keep them clear from scale and mildew by using remedies already mentioned. Those showy plants, the coleus, are so easily grown from slips, and give such a blaze of tropical beauty, that really no one should be without them. They do well in greenhouse, byshes, verandahs, and they colour beautifully in a shady nook of the garden. The caladiums are a beautiful showy class of plants, but out of glass they do not color so well, but at the same time they make a fine display, and are well worth growing.

ORCHARD.—Fruit trees of all kinds need attention; all as mentioned last month may be planted this month; parasitic and fungoid pests being now usually a source of trouble, spraying, washing, etc., must not be neglected.

THE END OF THE YEAR will soon be here. Are you going to be any better off than you were at the end of last year? If you are still marking time, make the best of the next few months and **OPEN A SAVINGS ACCOUNT TO-DAY** in

THE QUEENSLAND GOVERNMENT SAVINGS BANK.

VEGETABLE GARDEN.—The work in the kitchen garden this month needs care and judgment as to the climatic conditions usual in the district, for all seeds now sown will have to be brought to maturity in the most trying weather. It is therefore the best policy to sow in small quantities any of the beans—French, Lima, Madagascar, snake, and butter—and repeat in about a fortnight, as by this means a continuation is assured, and water can be supplied when in flower. One good drenching at this period, and a mulching of grass or long manure, amongst which a good sprinkling of salt can be thrown, will cause a good crop of pods to set, and preserve them from the ravages of insect pests. If the latter are very troublesome a little quick lime dusted over the rows when the dew is on will check them. Tobacco water sprinkled on young seedlings is one of the best remedies for insects and grubs. Melons, vegetable marrows, cucumbers, and the saladings must not be neglected if the coming heat is to be anticipated. All vegetables planted out this month need more space, or they will become weakly and drawn, and more easily become a prey to disease. Transplant rosellas, preparing a hole about 3 feet wide and 18 inches deep, with well-rotted manure for each plant, and plant 8 to 10 feet apart. By doing this you will be assured of a good crop.

FARM.—As the soil temperature increases, so does the growth of both crops and weeds, and there must be no cessation in the destruction of the latter amongst all crops amongst which implements can be moved. As the crops increase in vigor more care is needed not to injure the fibrous roots, the earth being worked towards the rows, and not from them as in the earlier stages of growth. English potatoes need great care, as the tubers of the earlier plant will soon be ready for market, and the final earthing of all should be done as speedily as possible. The plantation of sugar-cane should be pushed forward with all speed, the sets being planted in rows five feet apart and from two to three feet apart in the rows. Cotton plants should be thinned out and any misses filled in by transplanting. In some districts the wheat and barley crops will be ready for harvest, and farmers will do well to remember that the straw is worth taking care of, because there will be another drought by-and-by. Harvest all fodder crops as they are in the best condition—that is, when the most valuable food can be conserved, which is generally when the plant is beginning to turn ripe, or as soon as possible after the flower buds have begun to expand. Plant cuttings of sweet potato on light, loamy ground, also Kaffir corn, yams, arrowroot, rice, and ginger; also earth nuts, tumeric, and chicory. Any ground from which crops have been removed, or any lucerne paddocks that do not look like doing well, should be ploughed at once, and well torn about by disc or spring-tooth harrows preparatory to being sown with maize next month.

NOVEMBER.

FLOWER GARDEN.—Not much planting to be done this month and next; the idea is to look after those now growing. Dahlias may still be planted. Bulbs such as anemone, ranunculus, narcissus, freezia, etc., have mostly done flowering now, and are fairly ripe. These should be taken up, and stored away in a dry place for the time being, but it is just as well to look them over now and then, and pick out bad ones. A few zinnias and balsams can be planted, and sunflowers. Speaking of sunflowers, there is one variety called Stella, which we would certainly recommend to grow in preference to the baby sunflower. It is a little flower somewhat larger and better for cutting, single of course. There are two shades of this, yellow and sulphur yellow, and there is a very pretty double one called *Fistulosus Globosus Flore Pleno*, of sulphur yellow, very pale. Hoe all your beds, loosen the soil, mulch, clean scale off roses, tie up plants, get weeds off the paths and beds, water well in the evening—not in the morning, as the sun dries it up too quickly—but by watering in evening the plants get the benefit of it all night. Take care of your pot plants by stirring up soil and giving them liquid manure or bone dust.

VEGETABLE GARDEN.—The general idea that good vegetables can be grown only in cooler months is a fallacy that John Chinaman has exploded, and if but one hour per diem were spent in the vegetable garden, the pleasures of the household would be extensively enhanced, and his payments to the Chinaman greatly reduced, the work being pleasant, instructive, healthy, and remunerative, considering that you water and manure the same as John Chinaman. Sweet potato vines may be planted freely on any ground from which a crop has just been removed. Rhubarb roots need shade. Few seeds should be sown now, but close attention must be paid to those sown last month, and great care must be manifested in planting out any ready to move. Take advantage of every shower for this work, disturbing the roots as little as possible. The object must now be to keep all crops growing freely, and all seedlings must be protected from fierce sun and heavy rain.

HOW MUCH ARE YOU SAVING ? If you are only putting by HALF-A-CROWN A WEEK WHEN YOU COULD SAVE FIVE SHILLINGS, you are only doing half your duty. Your money in THE QUEENSLAND GOVERNMENT SAVINGS BANK works for you day and night, earning 3½% interest.

FARM.—The wheat and barley harvest will now be in full work in the areas devoted to the culture of those cereals. In harvesting malting barley the grain should be quite ripe before it is cut. This is known by the ear becoming swan-necked or bent downwards to the straw. It should be exposed as little as possible to the dew or rain, and placed in stack three or four weeks before being threshed, in which operation care must be taken not to chop or skin the grains. Where tobacco is grown top the plants to throw all vigour into the leaf. Plough or dig potatoes soon, as the tubers have set the skin. If desirable to leave in the ground, plough a furrow over the row from each side to keep off the sun or to drain away heavy rain. This plan minimises damage from scalding on the most retentive soils. Maize should be planted largely this month, and on the Downs as soon as the wheat and barley lands are cleared the plough should be at work to prepare for the needs of the cattle in the coming winter. Quick growing crops for ensilage may be now sown, but don't forget that bad fodder in a green state does not become good food by being made into ensilage. *Paspalum* of sorts, especially *dilatatum*, sown now, providing the weather is suitable, and grazed down in January or February, then rested till the winter, will prove a valuable and lasting winter pasture to utilise in conjunction with a paddock of *Phalaris commutata* and Algerian oats.

For all classes of **French and Butter Beans, Lima Beans**, we are in a position to supply strong growing new crop seeds at all times.

DECEMBER.

FLOWER GARDEN.—Now is about the hottest time of the year, and great care has to be taken with all plants in the flower garden. In the absence of rain, freely water, but always in the evening. Keep the grass lawn well out, and destroy all weeds, lightly hoe flower bed between the plants, and freely apply any mulching. Cut back roses showing no bloom, and a fresh start will soon be made. Stake the plants that lie straggling on ground. Watch the dahlias, thin out where needed, and make stakes thin. Little can be done this month in sowing seeds.

VEGETABLE GARDEN.—The cycle of the year's work in the kitchen garden is now nearly complete, for the fruit of the work done in the past few months is now being rewarded by the luscious, cool, and appetising fruits and vegetables that we have grown. The water and rock melon, the cucumber, the radish, and lettuce, with a few eschalots for those who like the onion tribe, tempt the most fickle appetite when other more ordinary food seems tasteless, and "Oh, it's too hot to eat" is the universal cry. Therefore, in the cool morning and evening do not begrudge an hour or two to sow a few of such seeds, or to give a little water to the things that are showing sign of distress, for it pays well to watch over the garden now, to give help to those plants that are struggling on by keeping all ripening fruit pods or seeds picked, and to prevent decaying vegetable matter from becoming a harbour for insects and slugs or other vermin. A few beans may be sown, or small saladings, but few seeds grow well this month without shade and careful watering. The seedsman is too often condemned for seeds not germinating, as the seeds will not germinate too well if the atmosphere be hot and dry, and when they do germinate they easily fall victims to the fierce rays of the sun, or are washed away by a hasty storm.

FARM.—It is now that the energy of the farmer and his men, as well as his horses, will feel the strain. Weeds in such crops as sugarcane and maize will be growing rampantly, and if they obtain the mastery now, there will be a corresponding decrease of yield and quality in the coming harvest, therefore be at them early and late. Maize may still be planted. Heavy returns on the coastal lands result from the maize planted now, especially the white variety, which prove themselves able to resist blight better than the red or yellow kinds, and it is more free from weevil than at any other time. Keep the lucerne paddock closely mown, and take care of the best made hay. The wet season will soon be upon us, when good hay will be scarce, and very difficult to make. Given favourable weather, impee, panicum, sorghum, or Kaffir corn may be sown, and for a late crop, arrowroot, ginger, sweet potatoes, or earth nuts may be planted. English potatoes that have not yet been harvested should at once be ploughed out; late kinds do not, as a rule, store well; it is best to market quickly. Land ploughed and furrowed during this and next month, provided the weather be dry, recuperates more quickly than at any other period of the year, aeration and nitrification being at the maximum.

AGENCIES IN ALL THE PRINCIPAL TOWNS IN QUEENSLAND

This Company was incorporated by Special Act of Parliament in 1888 solely for the purpose of acting in the capacities and of performing the duties undermentioned. AS IT TAKES NO OTHER BUSINESS WHATEVER, it is not only free from any element of speculation, but provides for the public a permanent and guaranteed system of skilled management under the direct supervision of the Supreme Court. Under the Company's Special Act, it may be appointed to undertake any of the following duties:—Executor, Administrator, or Trustee under Wills, Marriage, or other Settlements; Attorney or Agent in the management or realization of Estates; Guardian of the Person and the Estate of any Infant; Liquidator or Official Liquidator of any Company; Trustee in Insolvency; or Committee in Lunacy.

In compliance with the Company's special Act, the sum of **£20,100** is invested in the name of the State Treasurer as security for the faithful performance of duties entrusted to the Company. THE CHARGES are less than the Court usually allows to private executors. Pamphlets obtainable on application.

P. A. BLUNDELL, Managing Director.

A WILL should be made in the plainest language possible; it must be written with ink on paper or parchment, and must be signed at the foot or end thereof by the testator (the person who makes the will) or some other person, in his presence, and by his direction, and the testator must make or acknowledge such signature in the presence of two or more witnesses, who must be present at the same time and attest and subscribe the will in the testator's presence. A full attestation clause is given in the forms below, and its use in all cases will probably save a lot of trouble.

The witnesses should not be in any way beneficially interested in the will, as any beneficial gift, legacy, or appointment by the will to an attesting witness, or to the husband or wife of an attesting witness (except a charge for payment of debts) is void. An executor or trustee appointed by a will may, but ought not to, act as an attesting witness.

A witness need not know the contents of the will, as the will may be so folded that the signature and Attestation Clause alone may be seen.

On the question of whom to appoint executors or trustees, attention is directed to the advantages of appointing a permanent institution like **Queensland Trustees Limited**, whose advertisement appears on the previous page.

FORM OF WILLS.

I.—WILL GIVING TO ONE ABSOLUTELY ALL THE TESTATOR'S REAL AND PERSONAL ESTATE.

I, A.B., of &c. (testator's name residence and quality), hereby **REVOKE** all testamentary writings heretofore executed by me, and declare this to be my last will made and executed on the day of

19 . I **DEVISE** and **BEQUEATH** all my real and personal estate unto (devisee's name, residence, and quality) absolutely. **AND I APPOINT** the said (name) sole executor of this my will. **IN WITNESS WHEREOF** I have hereunto set my hand.

(Testator's signature).

Signed by A.B., of &c., as his last will, in the presence of us present at the same time, who, at his request, in his presence, and in the presence of each other, have subscribed our names as attesting witnesses.

(Names and addresses of two witnesses).

II.—WILL OF A MARRIED MAN GIVING THE INCOME OF HIS PROPERTY TO HIS WIFE; SUBJECT THERETO, THE CAPITAL EQUALLY AMONG HIS CHILDREN, THE CHILDREN OF A DECEASED CHILD TAKING THEIR PARENT'S SHARE.

THIS IS THE LAST WILL of me (testator's name, residence, and quality). I **REVOKE** all testamentary instruments heretofore executed by me, and I **APPOINT**and.....[for **Queensland Trustees Limited**], hereinafter called.

"my trustees," executors and trustees of this my will. I **BEQUEATH** to my wife (name) all the household furniture, plate, linen, china, glass, books, pictures, prints, provisions, and other household effects, belonging to me at the time of my death, and a legacy of £....., to be paid to her out of the first moneys coming to the hands of my executors. And as to all the rest of my estate and effects, both real and personal, I devise and bequeath the same unto and to the use of my trustees **UPON TRUST** to sell

call in and convert into money my real and residuary personal estate. And **UPON FURTHER TRUST** to invest the money arising from the sale calling in and conversion thereof in the names or name of the trustees or trustee for the time being of this my will; And to pay the annual income of such investments to my wife during her life. And from and after her death as to the capital and income of the same investments **UPON TRUST** for my children in equal shares, the respective shares of such children to be absolutely vested on my death. Provided that if any child of mine shall die in my lifetime, leaving issue, who shall survive me, and who being male shall attain the age of twenty-one years, or being female shall attain that age, or marry under that age, such issue shall take, and if more than one, equally between them, the share which their, his, or her parent would have taken of and in any residuary estate if such parent had lived to attain a vested interest. I **DECLARE** that the trustees or trustee for the time being of this my will shall have a discretionary power to postpone for such period as to them or him shall seem expedient the sale calling in or conversion of any parts of my real or personal estate, but the unsold real estate and the outstanding personal estate shall be subject to the trusts hereinbefore contained concerning the investments aforesaid, and the rents and yearly produce thereof shall be deemed annual income for the purposes of such trusts, and the unsold real estate shall be deemed to be converted as from the time of my death, and be transmissible as personal estate accordingly. I **DECLARE** that if at any time or times during the widowhood of my wife the annual income of my estate shall be less than £....., it shall be lawful for the trustees or trustee for the time being of this my will to raise out of the capital thereof and pay to my widow such a sum as will make her income up to £..... a year. I **DECLARE** that so long as my wife lives and continues unmarried the power of appointing new trustees conferred by statute shall be exercisable by her. In witness whereof I have hereunto set my hand this.....day of.....19 .

(Testator's signature).

Signed by the testator, the said (testator's name), as his last will in the presence of us present at the same time, who at his request, in his presence, and in the presence of each other, have hereunto subscribed our names as attesting witnesses.

(Names and addresses of two witnesses)

NOTE.—Obliterations and alterations of any sort in the will ought, if possible, to be avoided; when they have to be made, each one of them must be signed or initialled by the testator and witnesses on the margin, or as near to the alteration as possible.

It is advisable for both the testator and the witnesses to subscribe their names at the foot of every sheet, where the will contains more than one sheet of paper.

Marriage after making a will renders the will void, and necessitates another being made.

N.B.—If the above forms are not adapted to your requirements, it will be prudent to secure professional assistance, and if this is not at hand, write to the manager of **Queensland Trustees Limited** vide advertisement on previous page.

Registration of Births, Marriages, and Deaths.

EVERY Birth must be registered within sixty days, and every Death within thirty days next thereafter respectively; any neglect of this regulation renders the parties whose duty it is to register liable to a fine not exceeding £10. If sixty days have elapsed from the date of birth, the law requires the parent, or other person making the application to register such birth, to pay a fee of two shillings and sixpence, and to make a solemn declaration of the facts before a Justice of the Peace, prior to the registration. The father or mother ought to sign as informant. If unable to write, let a mark be made. No birth can be registered after three years have elapsed from the date thereof; but a record will be made in the Registrar-General's office if reliable information be supplied by the parents respecting such birth.

The birth of an illegitimate child must be notified in writing within three days, and the death of one under 5 years of age within twenty-four hours, by the occupier of the house or place where the birth or death occurred, to a Registrar of Births and Deaths for the District.

In cases occurring outside any City or Town these times are extended to one week.

The Occupier being also the mother, the time for notifying birth is extended to three (3) weeks. These notifications are IN ADDITION to the ordinary registration, which has also to be effected. A child born out of wedlock may, provided there was no impediment to the marriage of the parents at the time of the child's birth, be legitimated on making the prescribed declaration and attaching thereto a certificate of particulars and certified copy of registration of marriage. After legitimization a child has all the legal rights of a child born in wedlock (63 Vic., No. 11).

Any Minister and Justice authorised to celebrate marriages who has celebrated a marriage must, within one month thereafter, transmit (in accordance with the Act 20 Victoria, No. 15) the original certificate to the Registrar of the District in which the marriage was celebrated, and any Minister and Justice who fails to transmit the certificate to the District Registrar is liable to a fine of NOT LESS THAN £10, and not exceeding £50. Marriages must be solemnised by Ministers and District Registrars between the hours of 8 a.m. and 8 p.m., and by Justices between the hours of 8 a.m. and 6 p.m. Persons under age must produce the written authority of parents or guardians, signed by them in the presence of a Justice of the Peace, Registered Minister, or District Registrar, or the marriage cannot take place.

When the parents are dead or absent from the State and no guardian has been legally appointed in writing, or if either of the parties being a minor are born out of wedlock, then the consent of a Justice SPECIALLY APPOINTED TO GIVE CONSENT TO THE MARRIAGE OF MINORS is necessary.

Under the Life Assurance Companies Act (Commonwealth), the amount payable at death of a child under ten years is restricted to sums specified in the Schedule thereto.

Forms required in connection with celebration of marriage are supplied gratuitously to registered ministers of religion, who are not charged any fee for registration of marriages.

In every case of Burial, the Minister or person officiating at any religious service at such Burial, ought to receive from the undertaker, or person having charge of the funeral, a certificate from the District Registrar, certifying the registration of the death, unless in the case of inquest, when a certificate from the Coroner or Magistrate holding the inquest will be sufficient; and if any dead body shall be buried without such certificate, the person who may bury the same, or perform any funeral or religious service for the burial, or who shall in any way dispose of the body, shall forthwith give notice of the facts to the District Registrar. Undertakers are bound, under a penalty not exceeding £10, to lodge with the District Registrar, IMMEDIATELY after the burial, a certificate of such burial, signed by themselves and COUNTERSIGNED BY TWO WITNESSES.

Persons desiring information relating to registration of alterations of names of children legally adopted should apply to the Registrar-General, Brisbane.

E. Pugh's, 1920.

Packet Rates.

Packets may consist of Commercial Papers, Printed Papers, or Patterns, Samples, Merchandise, Book Catalogues, and Magazine.

For delivery within the Commonwealth and New Zealand and the islands annexed thereto (as enumerated under "Letters"), and Fiji—For every 2 bunces or fraction thereof, 1d.

In all other places, for any weight—Not exceeding 2 ozs., 3d.; 2 ozs. and 4 ozs., 3½d.; 4 ozs. and 6 ozs., 4d.; 6 ozs. and 8 ozs., 4½d.; 8 ozs. and 10 ozs., 5d.; each additional 2 ozs. or fraction thereof, 1d.

WAR POSTAGE RATES.—Half-penny on each article posted over and above ordinary postage rates.

Examination questions and worked papers from or to the office of the Federal Public Service Commissioner, if indorsed "Public Service Examination Papers only," and the Commonwealth and State Departments or the Universities within the Commonwealth, if bearing a similar indorsement, may be transmitted by parcel post, sealed against inspection.

Packet Regulations.

The maximum weight for a packet of commercial papers or printed papers shall be 5 lb.; and for patterns, samples, and merchandise, 1 lb., except in the case of packets containing *bona fide* samples of wine, which may weigh, inclusive of packing, up to 20 ozs. No packet may exceed 2 feet in length, or 1 foot in depth or breadth, or if in a roll 2 feet 6 inch in length, or be of inconvenient form.

A packet containing articles liable to different rates of postage shall be treated as if the whole contents were in the same category, and shall be charged at the highest rate applicable to any portion of its contents.

A packet may be sent through the post either without a cover (when it must not be fastened with anything adhesive), or in a cover entirely open at one end or side, or with the flap left unsealed, or fastened with a binder, or tied with string, so as to permit of easy withdrawal of the contents.

Glass must be securely packed in boxes of wood, metal, leather, or cardboard in such a way as to prevent all danger to the mails or postal officials.

Post Office Express Delivery Service.

Letters and packets not exceeding 8 ounces in weight may be specially delivered as follows, namely:—

- (1) *By special messenger, all the way.*—To secure this service, letters and packets must be handed in at an "Express Delivery" Post Office.*
- (2) *By special messenger after transmission by post.*—For this service a letter or packet may be posted at any post or receiving office, or in any letter-box or posting receptacle, and be "expressed" on reaching the delivery office, providing such office is an express delivery office.*
- (3) *By special delivery in advance of the ordinary delivery by postman.*—By this means any person may make an arrangement with the postmaster of any express delivery office to secure the immediate delivery of his own correspondence on its arrival.
- (4) *By special delivery by means of railway postal van.*—By this service a letter or packet without awaiting local delivery, or passing through the local post office, may be delivered at any railway station where the trains to which such vans are attached are timed to stop.

Printed Paper Rates.

Within the Commonwealth, per 2 ounces or fraction thereof, 1d.

To New Zealand, Fiji, New Hebrides, and British Solomon Islands (British Protectorate), ½d. per 2 ozs., or part of 2 ozs., with 1d. minimum.

To all other places, per 2 ounces or fraction thereof, 1d.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

Commercial Paper Regulations.

Commercial papers include all papers and documents *not wholly printed*, which have not the character of actual or personal correspondence, such as—Acceptances, accounts, invoices, receipts, ballot-papers, bankers' packets, Australian (Commonwealth Government) Notes sent from or to the Commonwealth Treasury, or from one bank to another within the Commonwealth, bank pass-books, or pass-books or cards connected with a Society, bills of exchange, bills of lading, cards, single, bearing the printed inscription "Post Card," cheque forms bound in books, drafts, drawings, examination papers (corrections allowed), files of official papers forwarded between Government departments, insurance documents (policies, etc.), invoices, legal documents (affidavits, briefs, deeds, depositions, etc.), manuscript or forms filled up in writing for printing or publication, maps, music (written), notice of meetings, obliterated postage stamps, orders for goods, pay-sheets, plans, prices current, promissory-notes signed or unsigned, proxy forms or notices, rate notices, receipts, returns or periodical statements, scrip, ships' manifests, specifications, spent letters (that is, letters which have clearly served their original purpose, and are at least two months old), stock sheets, travellers' cards, circulars, or orders, travelling stock notices, way-bills, and other similar articles.

Printed Papers Regulation.

Printed papers include all wholly printed matter, such as pamphlets, sheets of music (including perforated paper rolls of music for use in playing musical instruments), single visiting cards and address cards, circulars (wholly printed and not in letter form), a circular with a reply half or with a printed addressed reply envelope intended to be used as or in connexion with an order for publication, goods, etc., and with or without an impressed stamp thereon, proofs of printing, papers impressed with points in relief for the use of the blind, engravings, photographs, and albums, containing photographs, pictures, drawings, plans, maps, catalogues (except those wholly set up and printed in Australia), prospectuses, announcements, and notices of various kinds, and similar articles, whether loose or bound; paper patterns, usually sent in or with a journal of fashion, printed in the Commonwealth of Australia from type set up therein, or from stereotyped plates made therefrom, may be considered as part of such journal.

Packets of printed papers for transmission to the United Kingdom may not exceed 2 feet in length and 1 foot in width or depth, except in the case of those sent in the form of a roll, when the maximum dimensions shall be—for printed and commercial papers, 2 feet 6 inches in length and 4 inches in diameter, and for samples 12 inches in length by 6 inches in diameter. For other countries packets of printed papers may not exceed 18 inches in length, width, or depth. Such packets may not in any case exceed 5 lbs. in weight, except in the case of packets consisting of literature embossed for the use of the blind, addressed

* All post and telegraph offices at which telegraph messengers are employed are "Express Delivery offices."

to the United Kingdom, which packets may weigh up to 6 lbs. Printed papers may be placed either in wrappers, upon rollers, between boards, in covers open at both sides or at both ends, or in unclosed envelopes, or simply folded in such a manner as not to conceal the nature of the packet, or tied with a string easy to unfasten, but must be made up in such a manner as to admit of the contents being easily withdrawn for examination. Address cards and all printed matter of the form and substance of an unfolded card may be forwarded without wrapper, envelope, fastening, or fold.

The products of the copying-press and typewriter shall not be transmitted at the rate for printed papers, nor, as a rule, shall printed papers the text of which has been modified after printing, either by hand or by means of a mechanical process, so as to constitute a conventional language. But the following exceptions may be allowed:—

- (a) Printed papers may be dated in manuscript or by a mechanical process, and the signature of the sender, his trade or profession, and his address, and the name and address of the addressee, may be added.
- (b) On printed visiting cards and also on Christmas and New Year cards the address or title of the sender, or conventional initials, such as "p.p.c.," may be written, and also good wishes, congratulations, thanks, condolences, or other formulas of courtesy, expressed in not more than five words.
- (c) On printed circulars corrections and insertions may be made in manuscript or by a mechanical process in regard to names of commercial travellers, dates, and places of their intended visits, dates of departure and arrival of ships, as well as the names of the ships, names of persons invited to meetings, and the place, date, and object of the meetings.
- (d) Printers' proofs may be corrected in manuscript; additions which relate to accuracy, form, and printing may be made, and in case of want of space additional sheets may be used; the author's manuscript may be enclosed; printers' errors in other printed documents may also be corrected, and figures may also be inserted or corrected in prices current, tenders for advertisements, trade circulars, prospectuses, and stock and share lists.
- (e) Books, papers, music, photographs, and engravings, may bear a written dedication, and the invoice relating to them may be enclosed.
- (f) In forms of order or subscription for books printed on cards, the works required or offered may be indicated in manuscript.
- (g) The title, date, number, and address of the publication from which the article is extracted may be added in manuscript or by a mechanical process to cuttings from newspapers and periodical publications.

Circulars which are in other respects admissible, but which are printed or lithographed in characters resembling those of the typewriter, or are produced by means of any mechanical process from written or type-written originals, may be transmitted at the printed papers rate of postage, provided they are handed in at the counter of a post office, and at least twenty copies precisely identical are posted at the same time.

The following articles shall not be eligible for transmission at printed papers rate of postage:—Communications having the nature of actual or personal correspondence, whether printed or otherwise; or those in which the signature is printed in such a way as to give the impression that it has been written by hand, and is, therefore, personal; or those which are, or made to appear to be, of individual interest to the addressee only, or circular communications conveying instructions, etc., from central offices of banks, insurance, and other societies, or trading and other companies, to officers in branch offices. (This regulation does not apply to such communications as notices of meetings.)

All printed matter with additions, corrections, or alterations (in writing, by rubber stamp, or any mechanical process), must bear postage at the rate applicable to commercial papers, unless such printed matter or additions, corrections, or alterations have the nature of actual or personal correspondence, in which case they must bear postage at the rate applicable to letters.

Merchandise Rates.

For delivery—

- (1) Within the Commonwealth, and in New Zealand and the islands annexed thereto (as enumerated under "Letters"), and Fiji—Every 2 oz. or fraction thereof (up to 1lb.), 1d.
- (2) In all other places beyond the Commonwealth, Parcels rates are payable.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

Pattern and Sample Rates.

Within the Commonwealth and in New Zealand and the islands annexed thereto (as enumerated under "Letters"), and Fiji, every 2 ounces or fraction thereof (up to 1lb.), 1d.

To the United Kingdom, every 2 ounces or fraction thereof (up to 5 lb.), 1d.

To all other places beyond the Commonwealth, every 2 ounces or fraction thereof (up to 12 ounces), 1d.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

Note.—The Pattern and Sample Post outside the Commonwealth is restricted to *bona fide trade patterns or samples of merchandise*. Packets containing goods for sale, or in execution of an order (however small the quantity), or any articles which are not actually patterns or samples (such as wedding cake or presents) may not be forwarded by Pattern or Sample Post to the United Kingdom and Foreign countries.

Pattern, Sample, and Merchandise Regulations.

The following and similar articles may be forwarded under this class, viz.:—Dry powders, whether dyes or not, glass, liquids, oils, and fatty substances, live bees, and live but harmless zoological specimens, merchandise, mineral specimens, natural history specimens (such as dried or preserved animals or plants, geological specimens, etc., when sent for no commercial

purpose), ointments, soft soap, resin, paper, parchment or vellum, patterns, samples, seeds, wedding cake (securely packed in tin boxes). Patterns and samples may contain the name and commercial style of the sender, the address of the person for whom they are intended, the manufacturer's or trade mark, numbers, prices, and indications relative to weight or measurement and dimensions, or to the quantity to be disposed of, or such as are necessary to determine the origin and nature of the goods.

Book Rates (up to 5 lbs.)

For delivery within the Commonwealth—

(a) Books printed in Australia, except as prescribed, 1d. per 8 ozs. or part of 8 ozs.

(b) Books printed outside Australia, except as prescribed, 1d. per 4 ozs. or part of 4 ozs.

For delivery in New Zealand and the islands annexed thereto (as enumerated under "Letters"), Fiji, New Hebrides, and Solomon Islands (British Protectorate), 1d. per 4 ozs. or part of 4 ozs.

For delivery in all other places, 1d. per 2 ozs. or part of 2 ozs.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

The following articles shall not be eligible for transmission at the book rate of postage:—Account books, albums with or without photographs or pictures, catalogues and all publications issued in book form for the purpose of advertisement, diaries, directories, guide books, journals of fashion, music (bound or loose), pamphlets, statistical and similar publications, calendars, Acts and Regulations, pocket books, programmes of competitions, prospectuses, reports of companies and other business concerns or of institutions, etc., stationery of all kinds bound in book form, time tables, and generally all matter properly coming under the head of "printed papers," "commercial papers," or "merchandise."

Magazine Rates.

For delivery within the Commonwealth—

(a) Magazines, reviews, serials, and other similar publications wholly set up and printed in Australia, and published for sale in numbers at intervals not exceeding three months, 1d. per 8 ozs. or part of 8 ozs.

(b) Magazines, reviews, and other similar publications (including newspapers), not wholly set up and published in Australia, and published for sale in numbers at intervals not exceeding three months, each Magazine, 1d. per 4 oz. or part of 4 oz.

For delivery in New Zealand and the islands annexed thereto (as enumerated under "Letters"), Fiji, New Hebrides or Solomon Islands (British Protectorate), 1d. for the first 8 ozs. and 1d. for each additional 4 ozs. or part thereof.

For delivery in other places outside the Commonwealth, 1d. per 2 ozs. or part of 2 ozs.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

Newspaper Rates.

All newspapers printed and published within the Commonwealth for sale, posted by registered newspaper proprietors (not necessarily published by them), or by news-vendors, or returned by an agent or news-vendor to the publishing office—

(a) To places within the Commonwealth and to Papua—without condition as to the number contained in each addressed wrapper—1d. for every 20 ozs. or fraction thereof on the aggregate weight of newspapers so posted by any one person at the same time.

(b) To New Zealand and the islands annexed thereto (as enumerated under "Letters") and Fiji, parcels containing not fewer than four newspapers of the same issue, 1d. for every 16 ozs. or fraction thereof, on the aggregate weight of the newspapers so posted by any one person at the same time. The maximum limit of weight of bulk parcels from the Commonwealth to New Zealand, or vice versa, is 20 lbs. each parcel.

Newspapers, other than those posted by registered newspaper proprietors, or news-vendors, or returned by an agent or news-vendor to the publishing office—

(c) Posted within the Commonwealth for delivery therein and for transmission to Fiji, New Zealand, and the islands annexed thereto (as enumerated under "Letters"), and Papua, for each newspaper, every 10 ounces or fraction thereof, 1d.

(d) To the United Kingdom—Each newspaper not exceeding 8 ozs., 1d.; exceeding 8 ozs., but not 10 ozs., 2d.; every additional 2 ozs. or fraction thereof, up to the limit of 5 lbs., 1d.

Exceeding 8 ozs. for transmission wholly by sea, every 16 ozs. or fraction thereof, 1d. (e) Elsewhere beyond the Commonwealth—Each newspaper, not exceeding 4 ozs., 1d.; for every additional 2 ozs. or fraction thereof up to the limit of 5 lbs., 1d.

Newspapers printed and published outside the Commonwealth—

(f) Posted within the Commonwealth for delivery therein and for transmission to Fiji, New Zealand and the Islands annexed thereto (as enumerated under "Letters") for each newspaper, 1d. per 4 ounces or part of 4 ozs.

(g) Elsewhere beyond the Commonwealth, for each newspaper, 1d. per 2 ozs. or part of 2 ozs. Limit of weight 5 lbs.

Note.—The tax on insufficiently prepaid newspapers for transmission to the United Kingdom by all routes is double the deficiency at the rate of 1d. for every 2 ozs. or fraction thereof. Portions or cuttings from newspapers which do not retain the character of a newspaper are charged "Printed Paper" rates of postage. Newspapers printed or published outside the Commonwealth when posted in the Commonwealth are subject to "Magazine" rates of postage.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above the rates set out in these Regulations.

Definition of Newspaper and Supplement.

A newspaper shall mean any publication known and recognised as a newspaper in the generally accepted sense of the word, and printed and published within the Commonwealth for sale if—

- (a) It consists in substantial part of news and articles relating to current topics, or of religious, technical, or practical information; and (b) it is published in numbers at intervals of not more than one month; and (c) the full title and date of publication are printed at the top of the first page, and the whole or part of the title and the date of publication are printed at the top of every subsequent page.

A publication printed on paper and issued as a supplement to a newspaper shall be deemed to be a supplement and to be part of the newspaper if—

- (a) it consists in substantial part of reading matter other than advertisements, or of engravings, prints, lithographs, or coloured supplements; and (b) it is enclosed in each posted copy of the newspaper with which it is issued; and (c) it has the title of the newspaper with which it is issued printed on the top of each page of letterpress; and (d) it is not of a size or form which makes it inconvenient for carriage or delivery by post.

NOTE.—Newspapers not printed and published in the Commonwealth must bear magazine rates of postage.

The proprietor, printer, or publisher of any newspaper, as defined by Section 28 of the Post and Telegraph Act, 1901-12, may register it at the General Post Office of any State subject to the following conditions:—

- (a) The application for registration must be made in writing. (b) It must contain a description of the newspaper to be registered, and show at what intervals the same is or is intended to be published. (c) It must be accompanied by two copies of the newspaper to be registered and a fee of 5s. and a statutory declaration by the applicant declaring—(1) That the publication is printed and published in the Commonwealth for sale, and not for free distribution to any great extent; (2) that a total of at least 75 per centum of the copies to be issued will be sold to *bona fide* subscribers who have ordered the paper, or be handed or posted to persons for *bona fide* sale.

The Deputy Postmaster-General of any State may, when revising the register (as provided by s. 29 of *The Post and Telegraph Act, 1901-12*), call upon the proprietor, printer, or publisher of any newspaper appearing therein to furnish evidence by statutory declaration as to the total percentage of copies issued which are sold to *bona fide* subscribers who have ordered the paper, or which are handed or posted to persons for *bona fide* sale, and any other particulars which are, in his opinion, necessary to enable him to determine whether the newspaper should be removed from the register or not.

Publishers of newspapers registered in this State are required to print on the first page of each copy issued, the words "Registered at the General Post Office, Brisbane, for transmission by post as a Newspaper."

Any proposed change in the form of a newspaper must be submitted for the consideration of the Deputy Postmaster-General.

[NOTE.—The change in the name of a newspaper does not necessarily involve payment of a fresh registration fee.]

No publication tendered for transmission at any post office in the Commonwealth shall be sent as a newspaper unless the foregoing provisions have been complied with.

Any Deputy Postmaster-General may refuse to transmit or deliver any issue of a publication if such issue contains indecent or obscene matter.

Any posted newspaper found to contain indecent or obscene matter may be destroyed by order of the Postmaster-General.

No action shall be brought against the Postmaster-General or any officer of the Department for anything done or purporting to be done under the foregoing provisions, but any person aggrieved by anything so done or purporting to be so done by the Postmaster-General, or a Deputy Postmaster-General, may appeal to a Justice of the High Court or to a Judge of a Supreme Court of the State by summons or petition in a summary manner. The Justice or Judge may decide whether the action taken was justified in law or in fact, and may make such order as to restoration to the register or otherwise as to him may seem just, and may award damages and costs, or either, in his discretion.

Newspaper Regulations.

A newspaper may be sent either with or without a cover, but must be open at both ends, and there shall not be in or upon any such newspaper, or the cover thereof, any communication, character, figure, letter or number (other than the words "newspaper only"; or a line drawn through any report, article, or paragraph therein, or rates of postage; the printed title of such newspaper, the printed names, occupations, and places of business of the printer, publisher, and vendor thereof, the name, occupation, and address of the person to whom it is sent, and the name of the person who sends the same; or, in the case only of newspapers posted by the registered proprietors thereof, the words "If not delivered please return to head office . . ." (name of town), nor shall anything other than a supplement be enclosed in, or with, or accompany any such newspaper or cover, otherwise such newspaper shall not be transmitted or delivered.

Provided always that—with the exception of figures indicating the date upon which the subscription will expire, such as 10/12/07, and figures indicating the number of papers in the package to be transmitted, being allowed to be printed, impressed, or stencilled upon covers of newspapers issued from the publishing office of any newspaper within the Commonwealth—any newspaper bearing on the cover or outside of the fold thereof any printed matter not permitted for newspapers may be transmitted at the rate charged for printed papers.

If a newspaper posted at any place within the Commonwealth be found to contain writing or any illegal enclosure, it must be forwarded to the Deputy Postmaster-General with a report of the circumstances; but any such newspaper posted at a place beyond the Commonwealth shall be sent to the Dead Letter Office.

Newspapers except those forwarded in bulk, addressed to several persons, to be delivered separately at each address, must not be tied up in bundles, and each newspaper must bear the proper postage.

Two or more newspapers to the same address may be tied together, except in the case of newspapers sent to the United Kingdom by the "all sea" route, but the outside newspaper or wrapper must bear on its face or addressed side the full postage for each paper, and the whole should be tied so that the number of papers can be counted. The limit of weight of newspapers addressed to places beyond the Commonwealth, excepting those posted by registered newspaper proprietors or newsvendors, to New Zealand, is 5 lbs.

Newspapers (not being those forwarded in bulk) made up in packets bearing the same address can be transmitted at printed-paper rate of postage, but the weight of any such packet must not exceed 5lb.

Collected numbers of a newspaper shall not be transmitted through the post as a single newspaper but postage must be paid on each copy posted.

If newspapers be posted wholly unpaid they shall not be forwarded; if insufficiently prepaid they shall be sent to destination charged with double the deficiency.

The introduction into the Commonwealth of certain American, Chinese, and Indian newspapers has been prohibited. For list see p. 92 "Postal Regulations for April, 1918."

Bulk packages of newspapers for places within any State are only forwarded at the rate of 1d. per 20 ozs. if posted by a registered newspaper publisher, or any news-vendor; charge to be levied on the aggregate weight of the parcels lodged at any one time without condition as to the number contained in each addressed wrapper. The stamps to be affixed to the "newspaper postage" docket when such dockets are used, are to be cancelled by the persons posting the newspapers, who must write his name or initials across the stamps, in the presence of the Post Office receiving officer. The parcels should be stamped at the receiving office with the "Paid at" stamp.

Bulk packages of newspapers are not subject to the stipulations which apply to bulk packages of other classes of correspondence, as to the amount of postage on such packages posted at one time, or the hours during which they must be posted.

Headings of unsold newspapers returned by newspaper vendors or agents to publishers must be prepaid at printed-paper rates.

Portions of a newspaper (registered for transmission through the post), that is to say, a page or even portion of a page, may be transmitted at newspaper rates, always provided that such portion or page of the newspaper is not devoted to a particular advertisement or article, in the latter event it would be chargeable at printed-paper rates.

When, owing to a great influx of newspapers, the transmission or delivery of letters would be delayed if the whole mail were dealt with without distinction, newspapers may be kept back until a later despatch or delivery.

Posters or contents bills relating to the various issues, if properly addressed and bearing the requisite postage, may be secured to bundles of newspapers.

Newspapers regularly transmitted from a newspaper publishing office that have been unclaimed for one month at the Post Office to which they have been addressed, intimation having been made, in writing, by the proprietor or publisher of the newspaper concerned to the effect that he desires all or any of such newspapers returned under the conditions named, and that he is willing to pay for newspapers so returned at the rate of one half-penny (½d.) for each newspaper not exceeding 10 ounces in weight, such newspapers shall be returned accordingly. As an alternative, however, the following arrangement has been approved of, viz.:—When newspapers regularly transmitted from a newspaper publishing office have been unclaimed for one month at the Post Office to which they have been addressed, and intimation has been made in writing to the Deputy Postmaster-General by the proprietor or publisher of the paper concerned to the effect that he desires all or any of such newspapers returned, and that he is willing to pay therefor the printed-papers rate of postage, such papers may be returned to him accordingly, in terms of Regulation No. 90.

All unregistered or irregularly-posted newspapers, and all newspapers having any matter which is not a supplement accompanying them, shall be treated as packets.

Catalogue Rates.

Catalogues wholly set up and printed in Australia for delivery within the Commonwealth.—For each Catalogue, 4 ozs. or part of 4 ozs., ½d.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

A printed order form and a printed and addressed envelope and forms of application for a money order, may be treated as part of a catalogue if bound or fastened therein. Self-measurement diagrams may also be treated as part of a catalogue if bound in such catalogue in the same way as other leaves of the catalogue. The printed order form and the self-measurement diagrams must conform to the rest of the catalogue as regards the size of the paging, etc. The form of application for a money order should be submitted to the Deputy Postmaster-General for approval.

Catalogues posted at the special rate of postage prescribed for catalogues wholly set up and printed in Australia for delivery within the Commonwealth must bear an imprint showing that they have been wholly set up and printed in Australia and the name and address of the printer. The covers in which such catalogues are printed shall be endorsed "Catalogue wholly set up and printed in Australia." One catalogue only allowed in any wrapper so endorsed.

Hansard Rates.

That is, reports of Parliamentary Debates printed and published by the authority of the Commonwealth or of a State, ½d. per 12 ozs. or part of 12 ozs.

WAR POSTAGE RATES.—Half-penny extra on each article posted over and above ordinary postage rates.

* The weight of bulk packages of newspapers for places in New Zealand is limited to 20 lbs. each.

Parcel Rates.

Inland—One pound or under, 6d. Each additional lb., 3d., up to 11lb.
Interstate, including New Zealand, Fiji, and Papua—8d. for first pound, and 6d. for every additional pound or fraction of a pound (up to 11 lbs.).
United Kingdom—1s. for first pound, and 6d. for every additional pound or fraction of a pound (up to 11 lbs.).
Foreign—See Postal Guide.

PARCELS POST REGULATIONS.

LIMIT OF WEIGHT AND SIZE.—Parcels not exceeding 11 lb. in weight, 3 feet 6 inches in length, or 6 feet in length and girth combined, may be accepted for transmission from and to all Parcel Post Offices in the Commonwealth, served by railway, coach, or steamboat. Parcels from or to Parcel Post Offices within the Commonwealth, not served by railway, coach, or steamboat, must not exceed 3 lb. in weight; should a parcel be received exceeding that weight and addressed to a place to which it is not transmissible, it must be forwarded to the nearest Parcel Post Office on the mail route served by railway, coach, or steamboat, and the addressee must be duly advised thereof. The senders of parcels limited to 3 lb. in weight shall be required to pack those parcels in such a way as to permit them of being enclosed in mail bags.

Parcels exceeding 11 lb. in weight or of greater dimensions than those prescribed shall not be accepted for transmission through the post. Any such parcels which may be irregularly posted must not be forwarded to destination, but, if practicable, returned to the sender.

Except in cases where authority is given by regulation for payment of postage by the receiver, the postage must be fully prepaid by means of adhesive postage stamps, which the sender or person handing in the parcel must affix either close to the address on the wrapper, or to a label, obtainable at any post office. If the contents of a parcel be of a fragile nature, or postage stamps will not readily adhere to the wrapper, such stamps must be affixed to a tie-on label attached to the parcel. Postal officials must not affix postage stamps to the labels or covers of parcels.

In addition to the name and address of the person for whom it is intended, every parcel addressed to any place beyond the Commonwealth must bear the name and address of the sender on the wrapper, thus:—From _____ of _____

The name and address of the sender may also be indicated on parcels for delivery within the Commonwealth.

The contents of all parcels must be securely packed in such a manner as to preserve them from breakage or leakage; and from injuring other parcels in transmission, and, in addition—
 (a) Parcels containing liquids or semi-liquids, such as medicines, oils, paints, jellies, etc., or any matter which, in the event of breakage of the containing vessel or covering, would be liable to injure other parcels, must bear an endorsement on the outside wrapper indicating the nature of the covering or containing vessel, and of the contents; such articles should be packed in corrugated paper or some similar material, and completely surrounded with absorbent material or straw, dried grass, or other similar substance, in sufficient quantity to reasonably protect the containing vessel, and to absorb the liquid in the event of the containing vessel being broken. (b) Parcels containing fragile articles, such as millinery, toys, musical instruments, etc., or perishable articles, such as eggs, butter, flowers, fish, etc., must be endorsed "fragile" or "perishable" respectively on the outside wrapper. (c) All articles which are likely to injure other articles, and the edges and points of all sharp instruments, must be properly protected.

The wrappers of parcels which have become torn or damaged in transit must be made as secure as practicable. If the address of any parcel be rendered illegible, such parcel must, if possible, be returned to the sender.

A parcel intended for transmission by parcel post must not be posted in a posting box or pillar, but must be handed in at a parcels post office, and the officer to whom it is handed must check the weight, size, and postage, before accepting it; if it be not fully prepaid (except in cases where authority is given by regulation for payment of postage by the receiver), or exceed the limit of weight or size, it must not be accepted.

Should an article which is transmissible through the post only as a parcel be posted in a posting box or pillar, instead of being handed in at a parcels post office in the prescribed manner, it must be regarded as irregularly posted, and, if not exceeding 1 lb. in weight, must be forwarded as a letter or packet under the regulations relating thereto; but when in excess of that weight, if posted at and addressed to a parcels post office, and bearing full parcel postage, it must be forwarded on as a parcel; otherwise it must be returned to the sender on payment of an additional fee of 6d. for each parcel, if for delivery within the Commonwealth; but if addressed to any other State or country it must be detained to permit of the sender being communicated with, if practicable; if not properly packed it must, if possible, be returned from the parcels post office of receipt to the sender. The procedure adopted with regard to parcels so posted, which are insufficiently prepaid, shall be as follows:—(a) If for delivery within the Commonwealth, the parcel shall be forwarded to destination, but double the deficient postage shall be charged on delivery; (b) If addressed to any place beyond the Commonwealth the sender must, if possible, be at once communicated with, and the parcel detained until the requisite amount of postage due on the parcel and on the notice sent has been obtained. If the name and address of the sender (of parcels for places other than Cape Colony and New Zealand) cannot be ascertained, the addressee shall be notified of its detention and of the reason therefor, and informed that on receipt of the amount of the deficiency and the postage on the notice sent to him the parcel will be duly forwarded to destination. Parcels for Cape Colony or New Zealand, not fully prepaid, and posted out of course, may be forwarded, provided the senders are not known. Such parcels shall be charged double the deficiency.

Should an irregularly-posted parcel not bear an address sufficient to permit of its despatch to destination, the sender must, if possible, be written to and informed that on furnishing the requisite address and on payment of the amount of postage on the notice sent to him, together with any deficient postage on the parcel, it will be forwarded to destination.

The sender of a parcel addressed to any place beyond the Commonwealth must sign a declaration (on a form provided for the purpose and obtainable free of charge at any parcels post office) furnishing an accurate statement of the contents of the parcel and the value thereof, the address, and the sender's signature and address, which declaration must be affixed to the

parcel to which it relates. The net weight or quantity of the various articles contained in a parcel must, if possible, be stated, and any other particulars which would facilitate the assessment of Customs duty—such as, in the case of clothing, the material, and whether it is new or has been worn. If articles which are being returned to the country of origin are enclosed it must be so stated.

Delivery of Parcels.

Where satisfactory arrangements can be made, parcels shall be delivered as addressed. At all other parcels post offices notice shall be given to addressees, and delivery must be taken at the Parcels Post Office. In all cases senders must advise addressees by post of despatch of parcels so as to insure prompt delivery.

A receipt must be given by the addressee or his agent before delivery of a parcel. In the case of roadside delivery, addressees may authorise a mailman to receive and sign for their parcels at the parcel post office nearest to their address; but any such authority must be in writing, with the name of the mailman inserted.

Return of Parcels on Request before Delivery.

If the sender of a parcel posted for delivery within the Commonwealth apply for its return to him prior to its despatch from the office at which it was posted, such parcel shall be handed back without charge, but the postage paid thereon shall not be refunded. If, after its despatch from the office at which posted, but before delivery to the addressee, the sender applies for the return of a parcel, the request must, if possible, be complied with, but before it is handed back to him, the sender must pay half postage at the fully prepaid rate, but not less than 6d., together with the cost of telegram of advice, if one has been required, and any other charges due on such parcel.

OPENING OF PARCELS AND EXAMINATION OF CONTENTS.—Parcels may be opened and examined by Postal Officers, but after so opening the examining officer must securely refasten them. In the case of parcels from places beyond the State of destination, their contents may be examined by the Customs officers in the parcel post office, and, where duties are payable, the same must be paid before the parcels are delivered. Parcels may, however, be forwarded in bond to places where Customs officers are stationed, to be opened in the presence of such officers, who must collect and account for any duty on them. Parcels, the contents of which are not dutiable, must be forwarded at once to the Parcel Post Office nearest to destination. The necessary Customs entries will be passed free of cost to the addressees of parcels received.

Rate of Postage.

The following shall be the rates of postage charged on inland and interstate parcels, viz. :—

Destination.	On a Parcel not Exceeding—										
	1 lb.	2 lb.	3 lb.	4 lb.	5 lb.	6 lb.	7 lb.	8 lb.	9 lb.	10 lb.	11 lb.
	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.
Inland	0 6	0 9	1 0	1 3	1 6	1 9	2 0	2 3	2 6	2 9	3 0
Interstate	0 8	1 2	1 8	2 2	2 8	3 2	3 8	4 2	4 8	5 2	5 8

The foregoing rates shall be increased by fifty per cent. in the case of parcels marked "fragile" or "perishable," or which the senders require to be protected in the mails in transit.

Value Payable Post.

The Value-Payable Post is a system under what the Department undertakes to deliver registered articles sent by Parcel Post within the Commonwealth and to recover from the addressee on delivery a specified sum of money fixed by the sender, and to remit this sum to the sender by money order or postal notes, less the amount of usual commission or poundage. It also applies to registered articles posted in the Commonwealth for transmission to any Value Payable office in the Commonwealth.

In addition to the ordinary postage, commission on the amount specified by the sender to be collected from the addressee, at the rate of 2d. on sums not exceeding 10s. and 1d. for each additional 5s. or fraction of 5s., must be prepaid by postage stamps affixed to the articles distinct from the postage, and marked "commission." The registration fee and the proper postage must also be prepaid by postage stamps affixed to the parcel.

Value-payable parcels may be indorsed by the senders with a special request that they be returned to the senders if not claimed within a specified time, not being less than 14 days or more than a month. Parcels with such endorsements must be promptly returned free of charge at the expiration of the period fixed by the endorsement.

For further details of the Value-Payable post system, see *Post and Telegraph Guide*.

Money Orders.

Money orders shall be issued and paid as under :—

At the Chief Money Order Office of each State—Monday to Friday, 9.30 a.m. to 4 p.m.; Saturday, 9.30 a.m. to noon. At all other money order offices within the Commonwealth, Monday to Friday, 9 a.m. to 4 p.m.; Saturday, 9 a.m. to noon; but offices may be opened and closed at other hours when deemed necessary by the Postmaster-General.

The rate of commission for the issue of money orders shall be—If payable in the Commonwealth—For sums not exceeding £5, 6d., and for each additional £5, or part thereof, 6d. If payable in New Zealand and Fiji—For sums not exceeding £2, 6d.; exceeding £2, but not exceeding £5, 1s.; exceeding £5, but not exceeding £7, 1s. 6d.; exceeding £7, 2s.; exceeding £10, but not exceeding £12, 2s. 6d.; exceeding £12, but not exceeding £15, 3s.;

exceeding £15, but not exceeding £17, 3s. 6d.; exceeding £17, but not exceeding, £20, 4s. If payable in the United Kingdom, other British Possessions and Foreign Countries, 6d. for each pound or fraction of a pound up to £2; and 3d. for each additional pound or fraction of a pound. If payable in Papua—Not exceeding £5, 9d.; over £5, but not exceeding £10, 1s. 6d.; over £10, but not exceeding £15, 2s. 3d.; over £15, but not exceeding £20, 3s.

Applications for money orders must be in writing, and must contain the full information necessary to insure payment of the proper person. The Christian names at full length must be furnished, if possible, not merely the initials. The usual designation of a corporation, company, society, firm, official title, etc., will suffice as remitter or payee. The name of the State or Country, in addition to the town where payment is desired, must be stated, as towns of the same name exist in different parts of the world, such as Bristol, Croydon, Campbelltown, Gladstone, Ipswich, Maitland, Maryborough, Newcastle, Perth, Richmond, Queenstown, Wellington, etc. The address of the remitter must also be furnished in order that he may be communicated with if necessary. Forms of application may be obtained at any money order office.

Payment of a money order shall only be made—(a) To the payee thereof, or (b) to a person presenting the money order signed by the payee, or (c) to a person presenting the money order, assigned by the payee, who also presents a written order, signed by the payee, authorising the person to receive payment, provided the order shall bear—(i.) The signature and address of a witness to the payee's signature; (ii.) the name and address of the person authorised to receive payment; (iii.) the date on which such order was made.

No single order payable in the Commonwealth may be issued for more than £20. Two or more orders may be obtained when it is desired to remit larger amounts. No order may contain a fraction of a penny.

Postal Notes.

Postal Notes may be obtained at the Chief Money Order Offices, Monday to Friday, 9 a.m. to 4 p.m.; Saturday, 9 a.m. to noon. At the Stamps Sales Office, and General Post Office in each State, during office hours when the Money Order Office is closed. At most post offices in the Commonwealth, during the hours they are open for the sale of stamps, but not later than 6 p.m.

They are payable at the chief money order office—Monday to Friday, 9 a.m. to 4 p.m.; Saturday, 9 a.m. to noon. At country and suburban postal note offices, up to 6 p.m.

The denomination of postal notes issued, and the commission or poundage charged thereon shall be as follows:—

Denomination	Commission or Poundage.	Denomination	Commission or Poundage
6d.	1d.	4s. 6d.	1d.
1s.	1d.	5s.	1½d.
1s. 6d.	1d.	7s. 6d.	2d.
2s.	1d.	10s.	3d.
2s. 6d.	1d.	10s. 6d.	3d.
3s.	1d.	15s.	3d.
3s. 6d.	1d.	20s.	3d.
4s.	1d.		

The value of the notes have been so arranged that any sum of shillings and sixpences up to £1 can be remitted by not more than two of these notes.

The name of the person to whom it is desired payment shall be made may be inserted in the space provided for that purpose in which case the note must be received by such person, and if it be presented for payment by any other person he must also receipt the note. The name of a money order or postal note office at which it is desired payment shall be made may be inserted, when (except as mentioned below) the postal note shall be payable at that office only.

Where postal notes are made payable to a former secretary of a society, lodge, association board, club, or other body of the kind as such, payment of those postal notes may be made to the secretary in office as such, provided he furnishes an identification in connection with the matter.

A postal note may be crossed (like a cheque), when it shall be paid only through a bank. A note so crossed may be paid at any money order or postal note office in the Commonwealth, notwithstanding that the name of an office other than that at which it is presented has been inserted. Notes so crossed must be presented by a bank official and bear an impression of the bank's stamp.

Provided, however, that such notes when made payable to a particular person must, besides bearing the bank's stamp, be receipted by that person. If made payable to a particular firm or company, the ordinary business stamp of the firm or company shall, when request to that effect has been made in writing to the Deputy Postmaster-General, be accepted as a sufficient receipt. Provided further, that should a bank refuse to accept without charge a crossed postal note, such note may, on presentation at the post office at which it has been made payable, be paid, if signed by the person or firm to whom it is made payable, or, in the case of an open postal note, by the person presenting it for payment.

If the spaces for name of payee and paying office be not filled up, or if the note be made payable to "Bearer," the value thereof may be paid at any money order or postal note office in the Commonwealth, on the person by whom it is presented duly receipting the same. Such postal notes may be paid without signature when they bear an impression of the official stamp of the bank through which they are presented for payment. The person to whom a postal note is issued should keep a record of the number, date, and name of office of issue, to facilitate inquiry if the note be lost.

After a postal note has been paid, by whomsoever presented, the Postmaster-General shall not be liable for any further claim.

A postal note presented for payment after six months from the last day of the month of issue, shall not be paid until reference has been made to the chief money order office of the State of issue, and shall be cashed only at the General Post Office of the State of payment, and on payment of a commission equal to the amount of the original poundage; the amount of such commission must be affixed in unobliterated and unperforated postage stamps valid in the Commonwealth to the face of the note.

If a postal note contain any alteration or erasure, or be cut, defaced, or mutilated, payment may be refused.
No stamp duty is charged on any postal note issued or paid within the Commonwealth.

Registration Rates.

Fee for Registration—Each article, 3d.

Registered Envelopes—Each, 4½d.

Acknowledgement of Delivery of a Registered Article—Each 2½d.

Inquiry Respecting Delivery of a Registered Article—Each 2½d.

Registration Regulations.

Any letter, letter card, post card, packet, or newspaper, complying with the Regulations relating thereto, and bearing the registration fee of 3d. in addition to the correct amount of postage, shall be accepted for registration.

No letter, letter card, post card, packet, or newspaper, addressed in pencil (unless addressed to the care of some person), or to initials or a fictitious name, shall be accepted for registration. The reply halves of reply-paid post cards cannot be registered by the original senders of such reply-cards.

No postal article shall be accepted for registration unless the cover is in a sound condition. Under no circumstances shall articles be accepted for registration if seldedge paper or other gummed paper is attached to the covers thereof, or if the articles bear the appearance of having been opened and resealed.

If it is believed that an unregistered letter or packet addressed to the United Kingdom or to any other country beyond the Commonwealth, contains an article of value such letter or packet shall be forwarded to the Dead Letter Office.

Unpaid or insufficiently paid registered articles addressed to or received from places beyond the Commonwealth must be forwarded or delivered, as the case may be, without surcharge.

When no direction in writing to the contrary has been received, correspondence for a husband may be delivered to his wife, and correspondence for a wife may be delivered to her husband, and correspondence addressed to members of the same family living in the same house may be delivered to any responsible member of the family living in the house (except young children), or to any messenger authorised to receive it.

Except as set forth in the foregoing paragraph, no registered postal article shall be delivered to any person other than—(a) The addressee in person; or (b) a person authorised by a written order from the addressee to receive delivery of registered postal articles on his behalf; or (c) in the case of business establishments, public institutions, hotels, and lodging-houses, the proprietor or manager, or some person authorised in writing by the proprietor or manager to receive delivery of the correspondence at such places; or (d) a person to whose care the registered postal article is addressed.

An order under sub-clause (b) of this regulation must bear the date on which it was made, and the addressee's address, and must be witnessed by some person other than the person in whose favour it is made, and must be delivered to the Postmaster or other proper officer.

Provided that in all cases where the sender pays the prescribed fee to obtain an acknowledgment of receipt of the article, as provided by Section 38 (2) of the Act, delivery shall be made only to the addressee. In such cases the sender may indorse the cover of the article with the words "to be delivered to addressee only."

The registration of an article renders its transmission much more secure, and the loss of a registered article is a very rare occurrence; the public is advised to register all articles containing anything of an important nature, and when sending bank notes, drafts, etc., to take note of the numbers and other particulars thereof.

Articles intended for registration should on no account be dropped into a pillar-receiver or posting-box, but must be presented at a post or receiving office during ordinary office hours, and a receipt for same obtained on the proper form.

Where any postmaster or officer of the Post Office has reasonable cause to believe that any unregistered letter or packet for delivery in the Commonwealth, Papua, Fiji, or New Zealand contains any valuable enclosure other than money orders or bills of exchange, acceptances, or promissory notes payable to order, cheques, or postal notes or postage stamps not exceeding five shillings in value, such postmaster or officer may register such letter or packet, and charge it with double the prescribed fee for registration, and the sum to be so paid shall be written on such letter or packet by the postmaster or officer of the Post Office who registers the same, and such fee shall be paid by the person to whom it is addressed before delivery, unless such person before delivery, opens the letter in the presence of some postmaster or officer of the Post Office, and it is found not to contain any valuable enclosure, in which case such fee shall not be charged.

PRIVATE MAIL BAGS.

A private mail bag may be made up at the most convenient post office to the Department for any person, or for a number of persons, residing on a mail route, but beyond a mile from the nearest post office, subject to the following Regulations:—

1. The charge for a private bag made up and despatched from a post office by mailman shall be £1 per annum if made up and despatched not more than thrice a week; or £2 per annum if made up and despatched more than thrice, but not more than six times a week; or £4 per annum if made up and despatched more than six times a week; provided, however, that the charge for making up bags conveyed from and to the post office by a private messenger, instead of by a mailman, shall be £1 per annum if made up not more than once daily, and £2 if made up more than once daily. In each case the charge shall be payable in advance.

2. Payments must be arranged so that renewal fees fall due on the 1st January in each year, and renewal fees must be paid within one month from that date; new subscribers shall pay the proportion of the fee at the annual rate from the first day of the month in which they commence to the end of December following.

3. Private mail-bags, which must be of leather or strong canvas, must be provided at the cost of the person requiring them, and be large enough to contain all articles sent and received by post; if furnished with a lock, two keys must be provided—one for the postmaster and the other for the owner.

4. The postmaster must lock or seal the bag for despatch, and it must be returned in like manner; if a seal is used, the impression must be made known to the postmaster.

5. The bag may contain postal articles for all persons in the employ of the proprietor, or who, with the written consent of the proprietor of the bag, give written authority to the postmaster to enclose them in such bag. The person who pays for the bag shall be responsible for the unpaid postage on all postal articles contained in the bag. He must furnish receipts for all registered articles and parcels enclosed in the bag, and forward to the post office acknowledgments of delivery, duly signed by the addressees. The proprietor of the bag must return all correspondence for persons who have left his station or place, and also any letters, etc., enclosed in error.

6. Every bag must have printed upon it, or upon a leather or metal label, securely attached to the bag, the name of the owner, or the place where it is to be delivered, as well as the name of the post office with which it is exchanged. When a bag is made up for a number of persons the name of one of the number, to whom the bag may be addressed, must be specified. Telegrams enclosed in a private bag may be transmitted free of postage; but other correspondence so enclosed and intended for delivery at the township where the bag is opened or for onward despatch, must bear the correct amount of postage payable thereon.

7. In case of non-payment of postage or detention of receipts or acknowledgments for registered articles and parcels, the postmaster may decline to forward any more articles of those classes.

8. A contractor is bound to convey and deliver free of charge, all private bags given him by the postmaster or under his instruction, but he is not required to deviate from the usual mail route or road, unless instructed by the Deputy Postmaster-General, and must on no account be delayed. Should the return bag not be ready at the appointed time and place, the contractor must not wait for it.

9. Notwithstanding anything contained in the foregoing Regulations, institutions, persons, or firms whose premises are not situated on a mail route may have private bags (to be conveyed only by private messenger) made up at an annual cost of £1 if made up not more than once daily, or £2 if made up more than once daily. For bags of this kind, made up at the General Post Office, lockers—in which they will be deposited after ordinary office hours—will be provided at the General Post Office for a rental of £2 per annum. The charge in each case shall be payable in advance, and the provisions of the foregoing Regulations, 2 to 7 inclusive, shall also apply.

Private Boxes.

Locked Private Boxes may be rented at the General Post Office, and where provided at other post offices, on payment in advance of a fee of £1, £2, or £3 per annum, according to the size of box required. A box-holder may, on payment of a fee of £2 per annum, in addition to the fee paid for renting a private box, have the contents of such private box placed in a locked bag, and handed to his messenger. The bag, furnished with a lock and two keys—one for the postmaster and one for the owner—must be provided by the box-holder.

In the case of a country town where, other than on holidays, deliveries are not effected by letter carriers at least twice a day or on at least five days per week, the fees shall be—For a large box, £1 10s.; for a medium-sized box, £1; for a small box, 10s. per annum, payable in advance, provided that at least ten persons are severally prepared to rent private boxes at the post office at that town for at least one year.

Notwithstanding the provision for payment of annual fees, persons who declare that they are temporary residents only, and who desire to rent a private box for a limited period, may be allowed the use of such box for a period of not less than three months, and not more than six months. In those cases the fee shall be charged from the first day of the month in which the box is taken.

Subject to the provisions of the foregoing regulation, new subscribers shall pay in advance the rent for one year, calculated from the first day of the month in which they commence. At the expiration of the first year the renewal fee to be paid shall be calculated from the first day of the month after the close of the first year's service up to the end of December following. Thereafter, the renewal fee shall fall due on the 1st January in each year, and must be paid within fourteen days from that date.

Two keys shall be supplied with each box, but a fee of one shilling shall be charged for the use of each additional key supplied, and keys must not be obtained elsewhere than from the Department. On a box-holder relinquishing the use of a box he shall be required to, at once, return all keys supplied to him, as they are the property of the Postmaster-General, otherwise he shall be charged the rental fee for the box until they are returned.

If a box-holder who has rented a private box for more than one year continuously, relinquishes the use of such box before the expiration of any subsequent year for which the prescribed fee has been paid, he shall, on return by him to the Department of all the keys of the box, and payment of one shilling, be entitled to a refund of the proportion of the fee paid for the period beyond the end of the quarter during which the box is relinquished.

If a key be lost, information must at once be given to the officer in charge of the local post-office, and the remaining key or keys returned to such officer, when a new lock, for which a charge of five shillings shall be made, will be fitted in the box, and two keys supplied.

The Postmaster-General may refuse to let a private box to any person or persons, and may cancel the tenancy of a private box at any time, if he considers such box is intended to be, or is being used for objectionable purposes.

Private boxes shall be let only on the conditions prescribed in the Regulations, and upon any breach thereof the Postmaster-General may at once withdraw permission for the use of the box.

NOTE.—It materially facilitates the sorting, and consequently the delivery, of correspondence when it bears as portion of the address the number of the box. The Postmaster-General, therefore, invites the assistance and co-operation of correspondents and box-holders in this regard.

Private letter-boxes may be provided by postmasters at non-official post offices for the convenience of persons desiring such accommodation, on the understanding that the erection and rental of the private box is an arrangement entirely between the person concerned and the non-official postmaster, and one in which the Department cannot accept responsibility, or incur expense. The fee or rental of such boxes shall not exceed 10s. per annum, which may be retained by the postmaster.

TELEGRAPHIC INFORMATION.

HOURS OF BUSINESS.—Telegraph offices shall be open to the public during the hours following:—

At Brisbane Head Office from 9 a.m. to 10 p.m.; Saturdays, 9 a.m. to 7 p.m. At most other offices from 9 a.m. to 6 p.m. All principal towns only, telegrams are despatched and received between 8 p.m. and 9 a.m. by the payment of double rates.

Prepaid telegrams may be dropped into the post-office letter box or, where provided, a special box at a telegraph station, at any time when the office is closed, and shall be transmitted when business is resumed. Such telegrams, with full fee, must be enclosed in sealed envelopes. If the full amount payable for the transmission of a telegram be not enclosed, the latter shall be forwarded to its destination, but the addressee shall be required to pay, before delivery, the amount short-paid, together with the cost of the necessary instructions to the delivering office to collect the amount of deficiency. If the addressee of the telegram refuses to pay any charges due thereon, the sender shall be required to pay them.

Scale of Charges.

ORDINARY TELEGRAMS.—Town and Suburban, within prescribed limits, or within fifteen miles from the sending station, including address and signature—Not exceeding sixteen words 6d.; each additional word, 1d. Other places within the State, except Town and Suburban, including address and signature—Not exceeding sixteen words, 9d.; each additional word, 1d., interstate—i.e., from any one State to any other State, including address and signature—Not exceeding sixteen words, 1s.; each additional word, 1d.

Double the prescribed rates shall be charged on telegrams (Press telegrams excepted) tendered for transmission on Sunday, Christmas Day, and Good Friday. Also on all other days between 8 p.m. and 9 a.m. in those States in which offices open for business at 9 a.m., and between the corresponding hours in other States for transmission to offices where business is transacted during those hours.

PRESS TELEGRAMS.—Within any State—Not exceeding twenty-five words, 6d.; exceeding twenty-five, but not exceeding fifty words, 9d.; exceeding fifty, but not exceeding one hundred words, 1s. 6d.; every additional fifty words, or portion of fifty words, 6d. Interstate—i.e., from any one State of any other State—Not exceeding twenty-five words, 1s.; exceeding twenty-five, but not exceeding fifty words, 1s. 6d.; exceeding fifty, but not exceeding one hundred words, 2s.; every additional fifty words or portion of fifty words, 1s. Within the Commonwealth, relating to Parliamentary, Executive, Departmental, and other Commonwealth Proceedings as may be prescribed—Not exceeding twenty-five words, 1s.; exceeding twenty-five, but not exceeding one hundred words, 1s. 6d.; every additional fifty words or portion of fifty words, 6d.

NEW ZEALAND.—*Ordinary*: For each word (address and signature counted), 4½d. *Government*: For each word (address and signature counted), 3d. *Press (via Pacific or Eastern)*: Cable charges, 1d. per word; New Zealand Line, first ten words, 1s.; each additional word up to thirty-three words, ½d.; over thirty-three words and up to one hundred, 2s.; each extra fifty words, 1s.; each extra hundred words, 1s. 6d.

NEW CALEDONIA.—Between all stations in Queensland and all stations in New Caledonia—*Ordinary*: For each word, 9d. *Government*: For each word, 2d. *Press*: For each word, 4½d. Addresses and signatures counted.

NORFOLK ISLAND (via Pacific).—*Ordinary*, per word, 3d.; *Government*, 2d.; *Press*, 1d.; and plus for first ten words, 6d.; each extra word up to thirty-four, ½d.; over and up to one hundred, 1s. 6d.; each extra fifty, 6d.

Fiji.—*Ordinary*, per word, 8d.; *Government*, 4½d.; *Press*, 2d.; plus rates as Norfolk Island.

FANNING ISLAND.—*Ordinary*, per word, 2s.; *Government*, 1s. 1½d.; *Press*, 3d. per word. Telegrams tendered for transmission must be written in a plain and legible manner, and when practicable on the proper form, and the address must contain all information necessary to avoid delay and insure delivery. Addresses consisting of only two words, representing the addressee and the office of destination, shall not be accepted, except in the case of press telegrams, and telegrams addressed to police, unless the sender guarantees that the word representing the addressee is a registered code indicator. When a telegram is intended to be delivered to one person in care of another the word "care" must be written in the address immediately after the name of the addressee. The signature of the sender need not be transmitted, or telegram may have an abbreviated signature known to the receiver, but the correct signature of the sender must appear on the back of each telegram as a guarantee of its authenticity, and as subscribing to the conditions under which it is transmitted. In the text amounts or numbers must be written in words only.

The charges must be prepaid by means of postage stamps, which may be obtained at any Post or Telegraph or Telephone Office. The public must affix the stamps to the telegram forms, and the officer to whom the telegrams are handed for transmission must cancel the stamps in the presence of the person from whom such telegrams are received. Provided, however, that the charges on telegrams lodged at offices where approved cash registers are used, may be paid in cash.

Books of "unstamped" telegraph forms may be obtained, on giving timely notice, at any Telegraph or Telephone Office at a cost of 1s. per book of 100 forms.

Words which are habitually written as one word or coupled by hyphens shall be counted as one word, and those which are written without any hyphen, as two or three, as the case may be. Thus O'Neil and O'Connell must be counted as one word; King of the Ring (name of racehorse), four words; Sir Joshua (name of racehorse) two words; City of Adelaide (name of ship), three words.

Each of the following words, when written as one word, or words joined by a hyphen, shall be counted as one word, namely—(a) Cardinal numbers from twenty-one to ninety-nine (inclusive); (b) ordinal numbers from twenty-first to ninety-ninth (inclusive); and (c) the words half-penny, or one penny, twopenny, threepenny, fourpenny, foupence, fivepenny, fivepence, sixpenny, sixpence, sevenpenny, sevenpence, eightpenny, eightpence, ninepenny, ninepence, tenpenny, tenpence, elevenpenny, and elevenpence.

The prefix "St." must, however, be reckoned as part of a word, thus St. Kilda, St. James, St. Arnaud, shall be counted as one word each.

Telegrams marked "Collect," addressed to places within the Commonwealth, may be accepted only when the sender is known to the officer in charge, and signs an undertaking on a printed form provided for the purpose, that in the event of the addressee refusing to pay the charges for the telegram he or she will be responsible for the payment of the amount, and the cost of the telegram of advice of the non-payment by the addressee. The word "Collect" must appear in the preamble of the telegram, and be charged for.

The cost of a reply may be prepaid, and a reply-form shall then be delivered to the addressee, who shall be at liberty to send a telegram of the value prepaid, from any telegraph office within the Commonwealth. A reply-form need not necessarily be used for a reply, but may be used to prepay or partly prepay any single telegram for transmission to any place within the Commonwealth, within three months from the date of issue.

Telegrams posted at a post office (which is not a telegraph or telephone office), or in a posting receptacle, shall be forwarded by first mail to the nearest telegraph or telephone office, and transmitted thence by telegraph or telephone to destination, provided the form on which the telegram is written bears unobliterated postage stamps, or is accompanied by cash, sufficient to defray the cost of such transmission, and that it be enclosed in an envelope (on which postage need not be paid) indorsed "Telegram only," addressed to the officer in charge at the nearest telegraph or telephone office. If the full amount payable for the transmission of the telegram be not enclosed, the latter shall be forwarded to its destination, but the addressee shall be required to pay, before delivery, the amount short-paid, together with the cost of the necessary instructions to the delivering office to collect the amount of deficiency.

Urgent telegrams for transmission to places within the Commonwealth, shall be accepted from the public on payment of double the ordinary fee. Such telegrams will be transmitted and delivered in preference to any other telegram, except Government telegrams under s. 95 (1) of the *Post and Telegraph Acts, 1901-1912*, and Service telegrams. "Urgent" forms and envelopes must be used for "Urgent" telegrams.

Telegrams shall be delivered, free of charge, within a radius of 3 miles from a general post office, and within a radius of 1 mile from any other office where a delivery of telegrams is made. Telegrams for addresses beyond the abovementioned radii, but within a radius of $3\frac{1}{4}$ miles from a general post office, or within a radius of $1\frac{1}{4}$ miles from any other office of destination to which a messenger is attached, shall be delivered on payment of a charge of threepence each delivery, irrespective of the number of telegrams for the same addressee delivered at the one time; but the Department will not undertake delivery in any case in which natural or other difficulties intervene. Beyond the $3\frac{1}{4}$ -mile and $1\frac{1}{4}$ -mile radii delivery expenses shall be charged. For telegrams to be delivered on shipboard a charge for boat hire, if necessary, may be made.

No receipt from the addressees need be taken upon the delivery of telegrams originating in and delivered within the Commonwealth. Should it be necessary to obtain evidence of the delivery of a telegram, a receipt therefor, by telegram, may be ordered at the time such telegram is lodged for transmission, and shall be telegraphed back to the sender upon payment of ordinary telegraph charges, or, if desired, sent by post card on payment of 1d.

Senders of telegrams should furnish all information that will facilitate delivery; if the sender omit to do so, it is at his own risk. When it is found that the place to which a telegram is to be delivered is beyond the prescribed radius from the office, and no portage has been *guaranteed or paid, the telegram may be posted from the office of receipt.*

Where no messengers are employed telegrams remain at that office until called for. If special arrangements for delivery are desired and can be made, the actual cost of such delivery will be charged.

Notices of removal and instructions in writing, respecting the delivery of telegrams at hours when the addressee's place of business is closed shall be registered free of charge. If no such instructions have been registered, and any additional service is performed in delivering a telegram at a second address in the same town, an extra charge of 6d. shall be made.

Ordinary telegrams take precedence of press telegrams between the hours of 9 a.m. and 6.30 p.m., and all telegrams received at any one time addressed to the proprietor, publisher, or agent of a newspaper for transmission at press rates between the hours named may be restricted to 500 words.

Any person employed in a telegraph office may refuse to receive or transmit a telegram containing blasphemous, indecent, obscene, offensive, or scandalous matter in its contents, address, or signature.

RE-DIRECTION.—A telegram may, on the written request of the addressee or his agent, be re-directed and re-transmitted from one office to another within the Commonwealth; such telegrams shall, on re-transmission, be charged half rate, with a minimum of 6d. for ordinary, and 1s. for urgent telegrams, which must be paid before delivery.

REPETITION OF TELEGRAMS.—To provide against error in transmission, telegrams may be repeated by being sent back from the terminal station to the station from which originally sent. One quarter of the usual rate for transmission shall be charged for such repetition.

MULTIPLE TELEGRAMS.—Any telegram may be addressed either to several persons in the same locality or in different localities served by the same telegraph office, or to the same person at several addresses in the same locality, or in different localities served by the same telegraph office, if the instruction "x addresses" or "TMx" be written before the address. The name of the office of destination is needed only once, at the end of the address.

In telegrams addressed to several addresses the particulars concerning the place of delivery, such as exchange, railway station, market, etc., must appear after each address, or, if they relate to a succession of addresses, after the last of those addresses.

For non-urgent multiple telegrams, in addition to the charge per word as in the case of a single telegram, a charge of 6d. for each 100 paid words, or fraction of 100 paid words, contained in each copy shall be paid.

For urgent multiple telegrams, in addition to the charge per word as in the case of a single telegram, a charge of 10d. for each 100 paid words, or fraction of 100 paid words, contained in each copy shall be paid. The number of copies is equal to the number of addresses less one.

Letter Telegrams.

Letter telegrams, accepted for transmission within the Commonwealth, are subjected to the conditions contained in the Regulations.

Letter telegrams will be forwarded by telegraph during the night to the place of destination, and will be delivered as ordinary letters by first delivery or despatched by mail in the ordinary way.

The following are letter-telegram offices in Queensland:—Brisbane, Cairns, Mackay, Rockhampton, Toowoomba, Townsville, Charters Towers, Maryborough, and Warwick.

Letter telegrams must be handed in between the hours of 7 p.m. and midnight, except in cases where the office closes after 7 p.m. and before midnight, in which case the letter telegram may be handed in up to the hour of closing.

From the moment the letter-telegram is posted at the letter telegram office of destination, the letter telegram shall be regarded and handed as a letter. No guarantee can be given by the Department for the due arrival of the letter telegram, or against mutilation or delay. The charges will only be refunded on demand in the event of the letter telegram having gone astray through fault or negligence of the Department's officers, or having been delayed to such an extent that the letter telegram is delivered later than it would have been if posted at the time of lodgment as an ordinary letter.

The rate for letter telegrams are—For letter telegrams not exceeding 40 words, 1s.; each additional word ½d. Double the prescribed rate shall be charged for letter telegrams tendered for transmission on Sunday.

Week-End Cable Letters.

WEEK-END CABLE LETTERS.—Week-end cable letters may be exchanged between the Commonwealth and the United Kingdom, Portugal, Union of South Africa, India, Ceylon, Burmah, Newfoundland, and British North America—For rates, see *Official Guide*. They shall be subject to the same rules as deferred telegrams, with the exception that they shall be delivered on Tuesday morning, or, if practicable, on Monday. They must be lodged in time to permit of transmission from the chief office by midnight on Saturday.

Week-end cable letters shall be transmitted by telegraph throughout, except in the case of those intended for onward transmission by post from the telegraph office of destination in the United Kingdom or Canada or other centres.

The prefix TWT is to be included in the address, and charged for as one word.

ONWARD TRANSMISSION BY POST TO OTHER COUNTRIES.—Week-end cable letters may be accepted for onward transmission by post from Great Britain to European countries (except Germany, Austria, France, Belgium, Turkey), or from Canada to the United States of America. They should bear the indication "TWP5"; the letters "PR" (indicating post registered), and the name of the terminal telegraph office in Great Britain or Canada may be omitted, as "TWP5, Schuyler, 1976, Broadway, New York."

The rates for week-end cable letters for onward transmission by post are—For Continent of Europe, etc. (by post from the United Kingdom), 9d. per word, with minimum of 15s. 6d., and for United States of America, etc. (by post from Canada), 7d. per word, with minimum of 12s. 1d.

Wireless Telegrams.

NOTE.—The administration of the "Wireless Telegraphy Act, 1905," was transferred from the Postmaster-General's Department to the Department of the Navy on 6th September, 1915.

Wireless stations, from which telegrams may be exchanged with ships at sea, have been opened for public business at Sydney (hours of attendance, continuous); Melbourne (hours of attendance, continuous); Brisbane (hours of attendance, continuous); Adelaide (hours of attendance, continuous); Perth (hours of attendance, continuous); Hobart (hours of attendance, 9 a.m. to 11 p.m.); Mount Gambier (hours of attendance, Monday to Friday, 9 to 12, 2 to 6; Saturday, 9 to 1; no service Sunday); Broome, W.A. (hours of attendance, continuous); Cooktown (hours of attendance, 6 a.m. to 8 p.m.); Darwin (Northern Territory) (hours of attendance, continuous); Esperance (hours of attendance, 6 a.m. to 1 a.m.); Flinders Island, Tasmania (Monday to Saturday, 9 a.m. to 6 p.m.; no service on Sunday); Geraldton, W.A. (9 a.m. to 11 p.m.); Rockhampton (6 a.m. to 8 p.m.); Roeburne (6 a.m. to 8 p.m.); Thursday Island (continuous); Townsville (continuous); Wyndham, W.A. (Monday to Saturday, 9 a.m. to 6 p.m.; Sunday, 9 a.m. to 10 a.m., 1 p.m. to 2 p.m., and 5 p.m. to 6 p.m.); Port Moresby and Samarai (Papua) (continuous); King Island (Monday to Friday, 9 to 12; 2 to 6; Saturday, 9 to 1; no service on Sunday).

The rates for messages transmitted to or received from ship stations shall be as follows:—

For ordinary messages—(a) Coast station transmitting or receiving charge—(i) Radiotelegrams to or from ships licensed in Australia or New Zealand, 3d. per word; (ii) Radiotelegrams to or from other ships, 6d. per word. (b) Ship station transmitting or receiving charge—(i) Radiotelegrams to or from ships licensed in Australia or New Zealand, 2d. per word; (ii) Radiotelegrams to or from other ships, not exceeding 4d. per word. (c) Land line charge, 1d. per word.

(2) For press messages—(a) Coast station transmitting or receiving charge, 1½d. per word; (b) Ship station transmitting or receiving charge—Not exceeding 4d. per word, as determined by the ship authorities concerned. (c) Land line charge, ½d. per word, odd fractions of one penny to be reckoned as one penny.

(3) For official messages to or from ships of the British or Australian Navies—(a) Coast station transmitting, no charge. (b) There shall be no ship station charge. (c) Land line charge, 1d. per word.

(4) For messages consisting of reports to Lloyd's agents concerning marine casualties and overdue vessels:—(a) Coast station charge, 6d. per word. (b) Land line, 1d. per word. The charges for these messages shall be collected from the addressee.

(5) Commonwealth charges for relaying radiotelegrams, irrespective of the number of coast stations concerned in the relaying—(a) When the ships of origin and of destination are both licensed in Australia or New Zealand, 4d. per word. (b) When only one of the ships concerned, or when neither of the ships concerned is licensed in Australia or New Zealand, 7d. per word.

The total charge for messages transmitted to or from ships shall be paid by the sender. Radiotelegrams exchanged between the Commonwealth and Port Moresby and between the mainland and Flinders Island, or King Island, are subject to the regulations which apply to telegrams within the Commonwealth.

In connection with the counting and charging of radiotelegrams to or from ships, it is to be noted that they are subject to the regulations under the head of telegrams *beyond* the Commonwealth.

Wireless telegrams may be telephoned to the addressees under the conditions prescribed for the transmission of telegrams by telephone, as provided by Telephone Regulations.

Radiotelegrams are delivered at Port Moresby from Monday to Friday, between 9 a.m. and 5 p.m., and on Saturday from 9 a.m. to 1 p.m., but no afternoon delivery on holidays.

Postage is not required on wireless telegrams addressed to Daru and other places in Papua, such postal service being free.

Wireless stations have been established in various islands in the Pacific, and are open for traffic. The service at present is subject to delay. All radiotelegrams must be written in plain English. Delivery charges (if any) collected from the addressees on the Island.

Kawieng (6 to 10 a.m.; 4 to 6 p.m.), rate per word, plus Commonwealth land charge, 4d.; land charge, 1d.; radio relay charge, 4d. Manus (7 p.m. to midnight), 4d., 1d., 4d. Rabaul (continuous), 3d., 1d., 3d. Woodlark Island (6 p.m. to 6 a.m.), 2d., 1d., 2d. Coast station charges—For ships licensed in Commonwealth or New Zealand, 3d.; for other ships, 6d. Ship Station charges—For ships licensed in Commonwealth or New Zealand, 2d.; other ships, not exceeding, 4d.

TELEPHONE REGULATIONS.

Applications for connection with the telephone system must be made to the Deputy Postmaster-General, Brisbane.

All telephone lines, instruments, and fittings in connection with the telephone system, except where otherwise provided by the Regulations, shall be erected and supplied by the Postmaster-General, the cost being borne by the Government, and no persons, except employees of the Department, provided with proper means of identification, are to be allowed to interfere with or make any additions or alterations to any wires, instruments, etc., under the Department's control. In the event of any such interference, the subscriber concerned will be liable to have his line disconnected.

The following shall be the charges payable for each of the different classes of service specified—

In Telephone Networks having a Population of—	Radius of Network with main Exchange as Centre.	MINIMUM ANNUAL CHARGE—		
		For an Exclusive Service.	For each Subscriber or Instrument on a Two-party Service.	For each Subscriber or Instrument on a Three or more Party Service.
	Miles	£ s. d.	£ s. d.	£ s. d.
From 1 to 300 ..	5	3 0 0	2 10 0	2 0 0
„ 301 to 600 ..	5	3 5 0	2 10 0	2 0 0
„ 601 to 1,500 ..	5	3 10 0	2 15 0	2 5 0
„ 1,501 to 4,000 ..	10	3 15 0	3 0 0	2 10 0
„ 4,001 upwards ..	10	4 0 0	3 0 0	2 10 0

Provided that when the number of subscribers to an exchange or network either increases or diminishes to such an extent as to give rise to a higher or lower rental, the same will not be charged until the expiration of one year from the end of the month in which the increase or diminution in the number of subscribers takes place.

For the foregoing charges the Postmaster-General will provide and maintain all necessary Exchange equipment, subscribers' lines not exceeding two miles in length radially, one telephone wall-set per subscriber.

For each effective call originating from a subscriber's instrument the charge will be one penny.

No charge will be made to subscribers for calls received by him.

Accounts for calls will be rendered half-yearly, and must be paid within 14 days.

Statements of calls recorded will be furnished by the Department, upon subscribers' request, at the following charges:—Monthly total, 6d. per statement; daily total for a month, 1s. per statement. Trunk calls—For each statement showing calls to the value of one pound or under, one shilling; statement showing calls to the value of over one pound, one shilling for the first pound, and sixpence for each additional pound or fraction thereof.

Rent payable in respect of any telephone service shall be charged from the date on which the service is ready for use. Except in cases where spare or idle complete lines already exist from the premises of an intending subscriber to the Exchange, in which case rental for six months in advance may be accepted, the first year's rent for any such service shall be paid in advance; and thereafter rent shall be paid half-yearly in advance. Provided, however, that in respect of lines or extensions of lines, the cost of the construction of which will exceed the amount payable as rent for the first year, the subscriber may be called upon to pay in advance, or to enter into an agreement, in a form approved by the Deputy Postmaster-General, to pay rental or charges for calls to such an amount as will cover the cost of construction.

Charitable institutions having for their object the relief of poor and afflicted persons in Australia, which are supported wholly or partly by public subscription, and are approved by the Postmaster-General, shall be charged for lines and any extra instruments half the rates specified in these Regulations.

PUBLIC TELEPHONE BUREAU.—The fee shall be uniformly 2d. for a conversation of three minutes, or part of three minutes, whether the call be made by subscribers or non-subscribers. Public telephone services are now established in all important centres in Queensland. For list thereof, see *Postal Guide*.

Public telephones will be provided at a cab rank on the understanding that if the minimum revenue of £5 per annum be not derived from the use of the telephone the instrument will be removed.

TELEPHONING OF TELEGRAMS.—Subscribers to telephone exchanges may transmit by telephone to any telegraph office which is connected with a telephone exchange messages intended to be further transmitted, or, where practicable, delivered from the telegraph office to the respective destinations of such messages as telegrams; provided they pay the usual cost of such telegrams in addition to the rates for transmission through the telephone.

Where subscribers' premises are situated beyond 2 miles radially from the nearest telegraph office, the service provided for in this Regulation will not be subject to the charges prescribed for telephoning telegrams, but for subscribers situated within two miles radially from the nearest telegraph office, the service will be charged for as provided by Regulation 37.

Subscribers may also, at their option, and on giving written notice to that effect, have telegrams addressed to them forwarded by telephone from the telegraph office of destination to their telephone address, provided that the telegraph office and the subscribers are connected to the same telephone exchange or network; and copies of such telegrams will at the same time be either posted for delivery to their address, or delivered by messenger, as is most convenient to the Department. Such telegrams will be stamped on the face "Transmitted by Telephone."

SHIPPING INTELLIGENCE BY TELEPHONE.—Telegrams advising the movements of shipping may be sent from the various Coast Stations connected by telegraph in any State, and telephoned to any subscriber on application, and on payment of ordinary telegram rates.

Telephone Trunk Lines.—Rates.

TELEPHONE TRUNK LINES.—Lines joining two separate towns, or lines joining Exchanges other than those specified in the Regulations, are classed as trunk lines, and their use shall be charged for as provided hereunder, the charges being calculated upon the actual length of trunk line used:—

SHIPPING.

CAUTION WHEN ENTERING QUEENSLAND PORTS.

In connection with periodical exercises or manœuvres, or in the event of relations becoming strained between Great Britain and any Naval Power, an Examination Service may come into force at the ports or localities mentioned at the end of this notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog, they should on no account attempt to enter before receiving permission from the Examination Officer.

The institution of an Examination Service at any port will never be publicly advertised, but at all times where the relations of Great Britain with foreign powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination Steamer, and to be ready to "Bring to" at once when hailed by her or warned by the firing of a gun.

If the entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination Service is in force the Examination Steamer will be distinguished at night—

(a) When the port is closed, by three red vertical lights.

(b) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed. The Astronomical positions are only approximate unless seconds are given. The bearings are given both True and Magnetic.

SIGNALS.

Weather, Wind, Sea, and General.

N.B.—Strangers making for the port of Moreton Bay would do well to pay attention to any signals made from the lighthouse for their guidance.

Vessels entering or passing the port can communicate by signalling with the International Code by day and the Morse Code by night to the Lighthouse at Cape Moreton, messages being forwarded thence by telephone and telegraph to any ports of the Commonwealth. Fees for which will be collected from the Company's agents.

For the information of outward bound vessels the direction of the wind and the state of the sea at Cape Moreton is shown from the flag-staff at Cowan Cowan.

At the masthead, the direction of wind will be shown by the compass signals, Part 1, of the Commercial Code.

At the north yardarm, the state of the sea by the following flags:—

W—0. Smooth, with slight undulation.

Q—1. Short sea or slight swell.

S—2. Moderate sea or swell.

J—3. Considerable sea or swell.

L—4. Heavy sea or swell.

V—5. Very heavy sea or swell.

N—6. Very heavy sea and very heavy swell.

With the exception of W. and N., which are very seldom required, the number of divisions in the flags will point out the number indicating the state of the sea.

These signals will be hoisted as soon after sunrise as possible, and kept flying for an hour, and they will also be exhibited at such other times as they may be required.

When necessary, the force of the wind will be signalled by the Commercial Code (either at the same time or immediately afterwards) from the south yardarm, the force being indicated by the usual numbers, 1 to 12.

To enable vessels coming from town, or from the Brisbane Roads, to ascertain at night the state of the sea on the coast before going outside, one red light will be hoisted at the flag-staff at Cowan Cowan when the force of the sea reaches 3. When it is above that number, and dangerous, a red light will be hoisted on each yardarm of the flag-staff.

There is a signal and telephone station on the southern extremity of Moreton Island, from which communications can be forwarded to any part of the States.

N.B.—Masters of vessels about to leave Brisbane can also ascertain the state of the wind and sea at Cape Moreton by referring to the weather table at the Port Office, observations being transmitted at 9 a.m. and 3 p.m. daily, from Cape Moreton, by telephone.

The above numbers representing the various ports sailed from are required under the 112th section of the "Navigation Act" to be shown on arrival within one league of the Port by vessels claiming exemption from the payment of pilotage at Moreton Bay.

NOTE.—The number of the pennants may be easily recognised from their being composed of as many stripes or stars as they are intended to represent. When any number higher than 9 is to be represented, one pennant is hoisted one over the other; 2 over 8, represents 28, the number for Sydney. The Substitute Pennant is used when two of the same figure requires to be represented. For example, No. 5 over the Substitute, represents 55, the number for Darwin.

1. The number flag 0 will be hoisted below the descriptive flag when a vessel returns to port.

2. When a sail is in sight from Cape Moreton, a blue and white flag will be hoisted at the south yardarm, if visible to the south; at the north yardarm, if visible to the north. When the rig of the vessel can be made out, the Descriptive Flag will be hoisted instead of the previous Flag.

3. When off Cape Moreton and entering the port, the signal will be made from the mast-head, and the number below the Descriptive Flag will show the port sailed from.

4. When a vessel arrives at Cape Moreton and anchors there, No. 1 Pennant will be used *under* Descriptive Flag.

5. When arriving and anchoring at Bulwer, No. 1 Pennant will be used *over* Descriptive Flag.

6. When vessels are entering by the South Passage the 2nd Distinguishing Pennant will be hoisted below the Descriptive Flag.

7. When vessels have crossed the bar and are coming up the river, a square White Flag will be hoisted below the Descriptive Flag.

8. When two or more vessels of the same description arrive together from the same port, the Numeral Pennant will be hoisted above the Descriptive Flag.

9. When vessels anchor off the Pile Lighthouse the 3rd Distinguishing Pennant will be hoisted below the Descriptive Flag.

10. The Union Jack will appear below the Descriptive Flag on the arrival of a ship of war.

11. A vessel with the Governor on board will be denoted by the Union Jack being hoisted above the Descriptive Flag.

12. For vessels with immigrants on board their ensign will appear above the usual signal.

13. A Ball at the yardarm, with Descriptive Flag under, will denote the vessel to have passed the port—if on the south yardarm, vessel bound south; if on the north yardarm, bound north.

14. The Numeral Pennant will be hoisted at the yardarm, above the Distinguishing Flag, when two or more vessels are in sight N. or S. of Cape Moreton, or when two or more vessels are in the river, belonging to the same company, or names unknown.

NOTE.—When only one vessel arrives, the signal will be kept flying one hour; when more one thirty minutes will be allowed for each signal.

Night Signals.

Night Signals will be exhibited from the Flag-staff up till 10 p.m., as follows:—

- 1 Steamer from North, at Cape Moreton, Red.
- 2 Steamer from South, at Cape Moreton, Green.
- 3 Steamer from North, at Pile Light, Red over Green.
- 4 Steamer from South, at Pile Light, Green over Red.
- 5 Steamer from North, in River, Red over White.
- 6 Steamer from South, in River, Green over White.
- 7 Man of War, at Cape Moreton, Two Red Vertical.
- 8 Man of War, at Pile Light, Two Green Vertical.
- 9 Man of War, in River, Two White Vertical.
- 10 For two or more steamers, a White Light will be hoisted above the ordinary signals.
- 11 When two or more vessels are signalled in the River and one or more arrive at Cape Moreton or at the Pile Light from the same direction, will be signalled on separate halyards between the lights already exhibited and the mast.

NOTE.—The signal denoting that steamers are in the River will be kept up until they arrive at the wharf.

COMMONWEALTH ESTATE DUTY.

RATES OF DUTY PAYABLE ON ESTATES.

Where the total value of the estate, after deducting all debts, exceeds £1000, and does not exceed £2000—Duty shall be payable at the rate per cent. of one pound.

Exceeds £2000—One pound, together with an additional percentage of one-fifth of a pound for every £1000 or part of £1000 in excess of the sum of £2000, but so that the percentage shall not exceed fifteen pounds.

Estate duty shall not be assessed or payable upon so much of the estate as is devised or bequeathed or passes by gift inter vivos or settlement for religious, scientific, charitable, or public educational purposes.

In respect of so much of the estate as by will, intestacy, gift inter vivos, or settlement, passes to the widow or children or grandchildren of the deceased, estate duty shall be assessed and payable at two-thirds of the rate which would otherwise be payable.

SOLDIERS' ESTATES.—"The Succession and Probate Duties Acts Amendment Act of 1915" grants certain exemptions in the case of persons dying from injuries inflicted, accident occurring, or disease contracted (within twelve months before death) while on naval or military service, whether with His Majesty's Navy or Army, or under the provisions of any Act of the Parliament of the Commonwealth of Australia during the war in which His Majesty has been engaged.

FEDERAL INCOME TAX.

LIABILITY.—All persons who are married and are resident within the Commonwealth of Australia, whose incomes exceed £156 per annum; and all single persons or widows and widowers without dependents, resident within the Commonwealth of Australia, if their incomes amount to £100 per annum, are liable to make returns to the Deputy Federal Commissioner of Taxation, showing the income derived by them from sources in Australia during the twelve months ending on the 30th June of each year.

These returns must be lodged (except where extension granted) before the 1st September each year. Heavy penalties are imposed for failure to render returns. In special circumstances the returns may be based upon income of the calendar year, if the permission of the Deputy Commissioner is obtained.

Persons not resident in Australia, who derive income from sources in Australia, must make returns of their incomes irrespective of the amount. This liability extends to partnerships and trusts.

The return must include all income derived by the taxpayer from sources in Australia, including salary, wages, commissions, fees, bonuses, pensions, super-annuation allowances, gratuities not paid in a lump sum, profits from trade or business, dividends and bonuses from companies, interest on moneys at deposit or on loan, interest on debentures, income from rents, 5 per cent. on capital value of residence owned and used by taxpayer, or used rent free, beneficial interest in income under will or settlement, royalty, bonuses and premiums received in connection with leasehold estates, value of board or quarters received, value of allowances in goods, and cash prizes in lotteries.

Deductions are allowed in all assessments of the amount of expenditure incurred in Australia in producing the assessable income; also all rates and taxes paid other than Federal income tax; gifts exceeding £5 to public charitable institutions in Australia, and gifts of any amount to any patriotic fund, provided that these items are verified to the satisfaction of the Commissioner, an amount of £26 in respect of each child under the age of sixteen years wholly maintained by any taxpayer resident in Australia; and special deductions.

In the assessments of married persons, or persons with dependents, a deduction is allowed from the net assessable income of an amount not exceeding £156. The deduction, however, decreases as soon as the assessable income exceeds £156, and disappears altogether when the amount reaches £625.

In the case of persons who are single and without dependents, the deduction is limited to £100, less £1 for every £5 by which the net income exceeds £100, so that the exemption disappears when the total of the income from both sources reaches £600.

In the case of companies, a deduction is allowed from the net income of so much as is available for distribution, and is distributed, to shareholders of the company.

Income is separated into two classes—Income from personal exertion, and income from property—rates of tax for individuals, partnerships, and trusts on an ascending scale, including super tax, commencing for personal exertion income at the rate of 4.88d. in the £ on the first taxable £1, and increasing to 52.2d. in the £ when the income reaches £7,600, and, on all income over this latter amount the tax is 97.5d. in the £1. On property incomes, the rate increases from 4.88d., when the taxable income is £1, to 67.812d. in the £1, when the income reaches £8,500, and upon all income over £8,500, the tax is 97.5d. in the £1. The rate of tax for companies is a flat rate of 2s. 6d. in the £1 on the assessable income remaining after allowing a deduction of dividends distributed to shareholders.

FEDERAL LAND TAX.

LIABILITY to this tax is determined by the unimproved value of land owned as at 30th June in each year.

All persons resident in Australia, all trusts and partnerships, and all companies are entitled to a minimum exemption of £5,000. Absentees receive no exemption.

The rates of tax for residents are—

For so much of the taxable value as does not exceed £75,000, the rate of tax per pound sterling shall be one penny and one eighteen thousand seven hundred and fiftieth of one penny where the taxable value is one pound sterling, and shall increase uniformly with each increase of one pound sterling of the taxable value by one eighteen thousand seven hundred and fiftieth of one penny.

For every pound sterling of taxable value in excess of £75,000, the rate of tax shall be ninepence.

The rates of tax when owners are absentees are—

For so much of the taxable value as does not exceed £5,000, the rate of tax per pound sterling shall be one penny. For so much of the taxable value as exceeds £5,000, but does not exceed £80,000, the rate of tax per pound sterling shall be two pence and one eighteen thousand seven hundred and fiftieth of one penny where the excess is one pound sterling, and shall increase uniformly with each increase of one pound sterling in the taxable value by one eighteen thousand seven hundred and fiftieth of one penny.

For every pound sterling of taxable value in excess of £80,000, the rate of tax shall be tenpence.

In addition to the tax as ascertained above, there must be added in assessments made on land owned at 30/6/18 an additional amount of 20 per cent. of the tax.

RESULTS OF THE GENERAL ELECTIONS FOR 1918 COMPARED WITH THOSE OF 1915.

(INCLUDING BYE-ELECTIONS).

ABBREVIATIONS —**M**, Ministerialist, **FU**, Farmers' Union, **I**, Independent;

Holidays, 1920.

January 1 (New Year's Day)
 January 26 (Foundation Day)
 March 1 (St. David's Day)
 March 17 (St. Patrick's Day)
 Good Friday
 The Saturday next after Good Friday

Easter Monday
 April 23 (St. George's Day)
 May 8 (Labour Day)
 The Birthday of the Sovereign
 The second Monday in Sept.
 (Friendly Societies' Day)

November 30 (St. Andrew's Day)
 December 25 (Christmas Day)
 December 26 (Boxing Day)

Also all days publicly proclaimed.

When any of the appointed days falls upon a Sunday, the following Monday will be a holiday; and whenever the twenty-sixth day of December falls upon a Sunday, the day following will be a holiday.

When either of the following days, that is to say, the twenty-sixth day of January, or the first day of May, falls on any day of the week other than Monday, the day shall not be a holiday, but the following Monday shall be a holiday in lieu thereof unless otherwise proclaimed by notice in the *Gazette*.

The Minister may alter any of the above holidays by notification in the *Gazette*. He also has power to appoint special holidays or half-holidays either throughout the State or in particular localities.

Employers are not required to pay overtime on all of the days mentioned above. The holidays on which overtime is to be paid are fixed by the Factories and Shops Acts (Section 54 (17) or by Wages Boards Awards. The holidays fixed by the Factories and Shops Acts, on which overtime at the rate of time and a-half must be paid, are the following:—

The first day of January, Good Friday, Easter Monday, the first Monday in May, the seventeenth day of March, the Birthday of the Sovereign, Christmas Day, and the 26th day of December;

and it shall be noted that if the Minister, under the Holidays Act, appoints another day for any of these holidays, the holiday under the Factories and Shops Act is not altered. Overtime must be paid on the day fixed by the Act. Thus, if in any such case it is desired to close on the altered day, and not on the day fixed by the Factories and Shops Act, the alteration could only be made by agreement between the employer and employees, ratified by the Arbitration Court under its award.

The Industrial Arbitration Act also includes the twenty-sixth day of January, first day of March, twenty-third day of April, and thirtieth day of November (that is, Foundation Day and the Saints' Days).

The Short Way—

Straight to the Answer.

It takes a sharp pencil and a good head to figure discounts rapidly and without mistakes; It is a tiresome job at best.

With the **BURROUGHS CALCULATOR** it's just a matter of pressing a few keys and you have the answer in one simple *mechanical* operation.

If it's figuring of any sort—put it up to the Burroughs. It saves time in extending and checking invoices; making estimates, figuring selling prices and profits; totaling sales and checking all sorts of calculations.

It will cost you a postage stamp to investigate.

Said Spruce to Spry,
 "We ought to buy
 The goods they make in Queens-
 land, first."
 Said Spry, "Hear, hear!
 And local beer!
 For Castlemaine's the 'goods' for
 thirst!"

But not only from motives of
 loyalty do men call for Castle-
 maine—but because its the Ale
 that best suits them and fits in
 with local conditions.

Castlemaine Ale is brewed for
 this climate, and is always fresh
 and wholesome—full of life and
 sparkle. Ask for

Castlemaine Ale

"It's good for You."

The WHITE HOUSE

(Late Five-Ways Furniture Coy.)

Is gaining Good Ground

We have completely furnished many of the Finest Homes in the city. Furnished them throughout, and so completely satisfied our clients that they seem as though they will never stop talking about us. That will mean more business soon from their friends. And we are prepared for it. We can furnish a Mansion or a Cottage, and guarantee to do it at pounds less than any other Store. Good Furniture, too. The best to be had!

We're all Workers Here.

Every man Jack of us has his shoulder to the wheel. No Drones to draw big salaries, which, of course, must be tacked on to prices. We are under less expense—salaries, rent, etc.—than any other similar concern in Brisbane. That's why we can sell cheaper. We all have an interest in the Business, and you can't beat a man that works with his heart in the job, as well as his hands. Come over here and save money.

Please note that

Our Store is on IPSWICH ROAD

and is now painted WHITE, hence the name

READY FOR BUSINESS!

BELIEVING that quality is the only foundation of Commercial Success, we have never deviated from our original policy of selling only the best goods manufactured, plus a fair margin of working profit for ourselves. This attitude is reflected in the Fleming reputation of "good people to do business with"—the logical result of over half a century's effort in constantly and honestly serving the needs and means of the customer.

QUOTATIONS PROMPTLY GIVEN ON REQUEST.

We'll be glad to supply your wants in—

Galvanised Iron (Corrugated and Plain), Rainwater Goods, Spouting, Valley Gutter, Down Pipes, etc., Fencing Wire, Barb Wire, Wire Netting, Wire Nails, Hinges, Locks, Bolts, Screws, and all general Builders' Hardware and Tools.

Plumbers' requisites, Sheet Metal, Tinned Sheets, Hoops and Bars of every description, Sanitary Goods, Baths, Sinks, etc., Gas and Lighting Fixtures, Stoves and Household Hardware, Painters' Supplies, White Lead, Oils, Colors, and Brushware.

PRACTICAL TRADESMEN ALWAYS AVAILABLE.

A special service is maintained for the installation of Plumbing, Sanitary, and Lighting Fixtures, and all classes of repair work. Workmen sent to any part of the State. Moderate charges.

Telephone : Central 6061
(2 lines).

Geared 8, 10, 12, 14, 16 feet.

Patent Gearless Direct Acting Double
Bearing, 18, 20, 22, 24, 27, and 30 ft.

Exclusive features include : Longest Main
Shaft of any Windmill made ; Double
Step Gears in the Geared Mills, avoiding
back-lash. Large oil cups, with wick oil
feed. Sensitive and dependable Governor,
which cannot wreck in the highest winds.

**I.B.C. FIG. 357, 20IN. STROKE
BEAM PUMPING PLANT**

Is a combination plant, which can be
worked by petrol, oil, or steam engines,
and windmill power. Has weighted
beam to equalise weight of pump rods
and water column. Has windmill at-
tachment for working in combination
with windmills. Is geared 8 to 1.

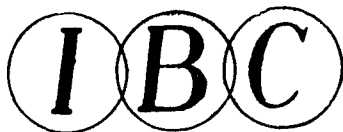

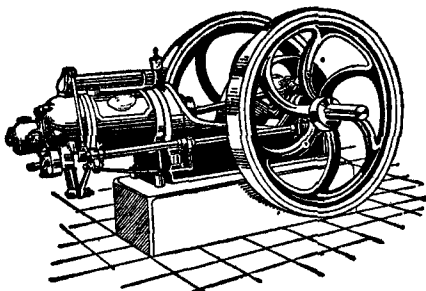

Pump tubing is screwed to a flange
below air chamber; and can be with-
drawn through base of plant.

HERCULES Oil Engine.

This Engine is built through-
out at our own works. Best
British model (operating entirely
on kerosene, no petrol even for
starting) Starting effected by
lamp, which is removed imme-
diately after.

Numerous satisfied users.

Made in sizes 3, 4, 5, 6½, and
8 brake horse power.

To Land Buyers and Land Sellers—We devote special attention to land transactions. It is a recognised fact that most of the important land sales have been effected by us. Our long connection with the district places us in the best position to advise you.

Valuations are a special feature in our business. Valuators for the Queensland Trustees Limited, and two leading banks.

Live Stock—Sales conducted at our own yards, or elsewhere if desired.

Shipping and Customs—25 years' experience in this department.

Furniture Sales conducted either at the rooms or at the premises of the owner. Most of the principal sales have been conducted by us. Account sales rendered promptly.

Loans—Money always to lend on approved Freehold Security.

Rents Collected, Estates Managed—Agents for most local absentees. We have acted as attorneys for nearly all local persons who have gone on tour. REFERENCE, if necessary, to the Bank of N.S.W., Bundaberg.

We have for Sale—Improved and Unimproved Properties in all parts of the City, Cane Farms, Dairy Farms, and Grazing Areas, throughout the district. Full particulars supplied on application.

Naturally keen on retaining and extending its influence
Sound and reliable in judgment on everything relating to selling
Transacting business with promptitude and efficiency for everybody
Advising clients honestly and correctly in every detail of business
Liberally assisting clients with financial aid whenever required
Linking up buyers and sellers of properties, stock, hotels, businesses
Solidly insisting upon the great future ahead of this wonderful district

HEMPENSTALL BROS. LTD.

THE AUCTIONEERS,
Stock and Station Agents,
Hotel Brokers,
Land Salesmen,
Business Specialists, and
FINANCIERS

Every transaction, large or small, personally supervised by the principals. Three highly-trained auctioneers on the staff. The closest market information always available on the Stock, Land, and Hotel Market.

The Big Development

ahead of Central Queensland makes it the Mecca for investors. With the rapid approach of the North Coast railway connection Mackay-Rockhampton, the latter town becomes the hub of the biggest coastal railway centre in the Commonwealth. Besides having the North trunk, the West trunk, and the South trunk lines emptying their traffic into this city, there are the big individual feeder lines from Mount Morgan, the Wowan-Dawson Valley, Emu Park, Yeppoon, Port Alma, Broadmount, and Alton Downs all speeding their passengers and freights into Rockhampton. That should be enough for any thinking man or woman to rely on. And railways are **ONLY ONE** of the **MANY IMPORTANT BUSINESS FEATURES** in Central Queensland.

One firm of Auctioneers and Salesmen right
in the van of this big forward movement is

RELIABILITY is a better argument than mere cheapness.

Reliability is Rooneys' argument. You have only to consider for a moment, and you'll understand why. Reliability in the goods you purchase forges a link between you and the store where you purchased—a link of satisfaction.

These links of satisfaction between this store and its clients have built up our business. Satisfied clients are the greatest asset to any business, and only reliable, dependable goods can make satisfied customers.

We supply practically everything, the house itself included, that a squatter or pastoralist wants, in Wood, Metal, Rubber, Glassware, Paints, and Household Furniture. Our business is still growing, and our stocks are larger than ever. We attribute our success and growth to you Satisfied Customers who have spoken and acted.

Rules for Measurement of Dams or Tanks with Sloping Sides and End.

MULTIPLY length by breadth of top, multiply length by breadth of bottom, multiply sum of top and bottom lengths by sum of top and bottom breadths; add these results together, multiply by depth and divide by six; this will give the number of cubic feet, or divided by 27, will give the cubic yards.

$$\text{Top} = 120 \times 80 = 9,600$$

$$\text{Bottom} = 72 \times 32 = 2,304$$

$$192 \times 112 = 21,504$$

$$33,408$$

$$12$$

$$6)400,896$$

$$27)66,816 \text{ cubic feet}$$

$$2,474 \text{ cubic yards.}$$

Rules for Measuring Timber in the Log.

MULTIPLY the square of a quarter of the circumference in inches or quarter girth, by the length in feet, and the total will be the number of superficial feet contained in the log.

EXAMPLE.

The solidity of a tree where girth in the middle is 100 inches and the length 18 feet.

Inches.	Feet	Inches.
25 = $\frac{1}{4}$ of 100	2	1
25	2	1
125	4	2
50		2
		1
625	4	4
18		18
5000	78	1
625		6

The girth must be taken in the middle of the tree, if it tapers regularly; if not, take several girths, and their sum, divided by their number, will give the mean girth approximately. If the tree be very irregular, divide it into two or more parts, and find the contents of each section separately.

$$144)11250(78 : 125 \text{ ft.}$$

A simple and expeditious way of taking the girth is to have a tape divided into equal parts of 4 inches; and number at 4 inches from the end with 1; at 8 inches, 2; at 12 inches, 3; and so on, by which means the quarter girth can be obtained by merely girthing the tree.

If the tree has not been stripped of bark, allow as much as would bring the measurements correct with bark taken off.
